The Tanjung Tribune

NO. 04/2026 | A PERIODIC NEWSLETTER OF TANJUNG RHU RESORT, LANGKAWI | FEB 2026

This February, Tanjung Rhu Resort brings together a series of meaningful occasions — each offering its own unique experience by the sea. From the once-a-year Sandbar Walk to intimate Valentine celebrations, Chinese New Year festivities, and the peaceful moments of the fasting month, guests are invited to experience February in different ways, all within the natural beauty of Tanjung Rhu.

Explore the moments that define the month below.

THE SANDBAR
TANJUNG RHU NATURAL WONDER

EXPERIENCE THE "SEA PARTING" PHENOMENON

Sandbars—often called offshore bars or wave-washed ridges—are gentle masterpieces shaped by time, tide, and the rhythm of the sea. Most of the year, they remain hidden beneath rolling waves. But on rare mornings, when conditions align perfectly, the ocean quietly steps aside and reveals a path of soft sand where water once flowed.

At Tanjung Rhu Beach, this extraordinary moment unfolds just once a year. When the sea level falls to 0.0m, the legendary SANDBAR emerges—transforming the seascape into a breathtaking natural bridge that connects the mainland to Chabang Island and Kelam Baya Island.

Spanning almost one kilometre, the sandbar invites guests to do the unimaginable: walk across the sea. With each step, the morning light reflects off shallow waters, revealing starfish, small crabs, seashells, and delicate marine life beneath your feet. The calm, early-morning atmosphere—paired with panoramic views of limestone islands—creates a sense of wonder that photos can hardly capture.
