BEACHES
The beaches in the area are beautiful and impressive with their fine white sand and clear blue water; you could take a stroll to the following beaches:

BEACH ACCESS
The nearest access to the Worthing Beach is opposite the service station to the left of the hotel and Accra Beach is a 10 minute walk to the right of the hotel.

WORTHING BEACH:
Located on the South Coast of Barbados is the beautiful white sandy beach of Worthing. The sea in this area offers a multitude of delights for all sea lovers!

Just off-shore within swimming distance is an interesting coral reef to discover, filled with tropical fish. On the inside of this reef the swimming is extremely safe, the calm waters make it especially good for children and beginner-swimmers, as the depth of the water vary from approximately 2 - 6ft. Walking along a westerly direction along Worthing Beach, the sea becomes more lively and deep. This expanse of beach area has something exciting to offer everyone! Whatever your heart desires... it is waiting for you.

ACCRA BEACH:
This very popular South Coast beach offers a combination of exciting waves and calm swimming. Relax on a chaise lounge or on the soft white sand, under the shade of a casuarina or sea-grape tree, or enjoy one of the many water sports activities that are available from the beach such as windsurfing, sunfish sailing, Hobie Cat rides and snorkeling. Boogie boarding and body surfing are particularly popular. Vendor kiosks have been established at Rockley Beach, from which you can buy colourful clothing and local jewelery and handicraft.

Hop across the road to Quayside Centre for a great lunch (Grilled Fish, Chinese, Mexican, pizza, pasta, and ice-cream) and to shop for local craft, gifts and beachwear.

SOUTH COAST BOARD WALK:
If you walk to the right side of the Hotel, you will eventually meet the South Coast Boardwalk. This Boardwalk runs from Accra Beach all the way to the Hastings area, and is good for strolling or taking a nice run along the seaside. The Boardwalk is also decorated with many bars and restaurants. We do not advise using the boardwalk after dark, as it is not fully lit and not always patrolled by police.
All beaches in Barbados are public so feel free to roam our beautiful beaches. Please be warned that you SHOULD NOT eat berries found on the beach. In particular, the Manchineel Berry, which looks like a small green apple, will blister you and is POISONOUS. Even if you walk underneath a Manchineel Tree and water falls on you, it is possible that you will get blistered. These trees are usually marked with a red ring around the trunk. Please do not swim if red flags are up on the beaches as they indicate swimming conditions are dangerous. Also stay away from buoys as little sea insects that call the buoys home may sting you.

PLEASE NOTE:
- Beaches are public in Barbados; therefore you may find yourself approached by vendors and water sport operators.
- Say “No thank you” if you are uninterested in what they are selling.
- Transactions with unauthorized vendors will be at your own risk.
- Please note that the selling, or purchasing of illegal drugs or substances may result in prosecution.

BEACH & BATH TOWELS
In an effort to conserve the environment we operate a ‘GREEN PROGRAMME’ for our beach and bath towels. Your towels will be replaced every other day; if you require towels earlier, they will be available at Front Desk. Kindly note a laundry charge of Bds$6.00 per towel will apply for an early towel exchange. Thank you for your co-operation as we endeavour to ‘GO GREEN’.

Local Information

BARBADOS
Barbados is the eastern-most Caribbean island. It is located at 13.1N, 59.5W. The island, which is less than one million years old, was created by the collision of the Atlantic crustal and Caribbean plates, along with a volcanic eruption. Later coral formed, accumulating to approximately 300 feet. It is geologically unique, based on two land masses that merged together over the years.

BRIDGETOWN
Bridgetown (metropolitan pop 287,010 (2019), is the capital and largest city of Barbados. Bridgetown is sometimes locally referred to as "The City", but the most common reference is simply "Town".

The Bridgetown port, found along Carlisle Bay (at 13.106°N 59.632°W) lies on the south-western coast of the island Bridgetown is the capital and commercial center and has a population of about 80 000. Bridgetown was originally named "Indian Bridge" for the rude bridge which had been constructed over the river (now known as the Careenage) by the Amerindians. It was later called the "town of St. Michael" in official documents, before finally being named Bridgetown.

The Chamberlain Bridge was opened in 1872 and was a manually operated swing bridge allowing entry into the inner basin of the Careenage. In 2006 the Chamberlain Bridge was replaced with a modern lift bridge.

In previous times, the careenage was an important hub of activity for inter-island trading vessels. Today the careenage is mainly used by pleasure craft (catamarans, yachts, fishing boats, etc).

Broad Street is the main street of Bridgetown and consists mainly of banks, department stores and duty free shops. Other streets in Bridgetown such as Swan Street, Roebuck Street and Tudor Street consist mainly of smaller shops and businesses, together with street vendors.
