# WELCOME TO THE PALLADIUM

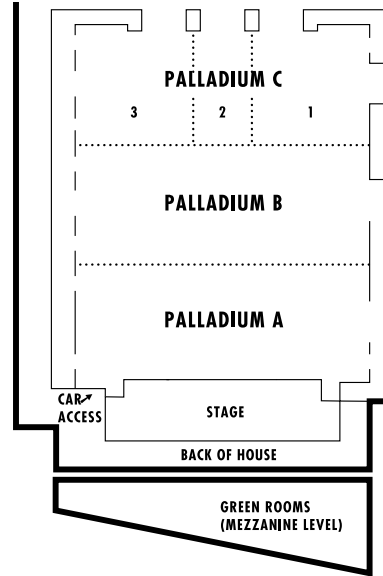

The Palladium at Crown is Australia's premier ballroom. It is a spectacular venue for a wedding with magnificent custom-designed carpets, seven metre ceilings, plush wall panelling and superbly appointed fittings.

It's a unique level of opulence that flows throughout this pillarless ballroom - the largest hotel ballroom in Australia. It's also one of Australia's most technologically advanced venues, with state-of-the-art sound systems, LED lighting and broadcast facilities, including a fully automated projection system with six retractable digital screens.

The Palladium at Crown can be reconfigured to suit almost any size and style of wedding.
