ishga

Organic Seaweed Skincare

ishga is derived from the Gaelic word for water. Their luxurious, regenerative organic and vegan skin care products have been developed in the Outer Hebrides using the highest quality and purest Scottish seaweed combined with water from a natural spring situated on the beautiful Hebridean Isle of Lewis.

Seaweed has been used for centuries for its natural healing and therapeutic properties. It contains a high content of vitamins, minerals and powerful natural antioxidants that are considered essential for maintaining healthy glowing skin; while scientific research shows the seaweed extract used in ishga preserves the skin's natural collagen. The mineral rich seaweed extract is carefully blended with cucumber extract, macadamia, jojoba, aloe vera and bergamot so that your ishga treatments will detoxify, nourish, firm and hydrate the skin.
