

WINE LIST

TALES OF GRAPES

Our vision is to create a wine list that is accessible to everyone. Our motivation in creating this unique essential list, stems from our love for good wines .Our philosophy in terms of style is to look for wines of balance, wines that are a true representative of their origins, and wines that will complement our style of food.

In the world of wine, finding the grape variety that interact best with the soil and climate of a region is a significant aspect in order to select the best accompaniment with your meal.
