Bay Gardens Resorts Celebrates World Food Day by Nourishing Young Minds

In observance of World Food Day on October 16, Bay Gardens Resorts continued its commitment to community well-being by sharing the joy of a good meal with students at Monchy RC Primary School and Gros Islet Infant and Primary School.

Through this annual initiative, Bay Gardens Resorts provided breakfast for the students of Monchy RC Primary School and lunch for the students of Gros Islet Infant and Primary School, reinforcing the importance of food security, proper nutrition and collective responsibility in supporting the well-being of our communities.

At Monchy RC Primary School, Principal Mr Troy Nestor welcomed the resort group's continued involvement, highlighting the longstanding relationship between Bay Gardens Resorts and the school.

"Indeed, it has been a pleasure welcoming Bay Gardens Resorts here once more. Bay Gardens has been a tremendous partner to Monchy RC Primary School for over a decade," said Mr Nestor.

The initiative was equally welcomed at Gros Islet Infant and Primary School, where Ms Hermina Lastic expressed appreciation for the involvement of corporate partners in supporting the school community.

"We are always happy when corporate citizens come out to help with our school, and we are especially happy today to be recipients of Bay Gardens Resorts' generosity" Ms Lastic shared.

World Food Day serves as an important reminder that access to nutritious food is essential to building healthier communities and creating opportunities for future generations. For children in particular, proper nutrition plays a vital role in their growth, development and ability to engage meaningfully in their education.

At Bay Gardens Resorts, we believe every child deserves access to nutritious meals and the opportunity to reach their full potential. By supporting schools and community initiatives, we are proud to play our part in promoting food security and contributing to the well-being of Saint Lucians.

As we reflect on this year's World Food Day observance, we remain grateful to our school partners for welcoming us and allowing us to make a difference in the lives of their students.

Because when we nourish our children, we invest in a brighter future for us all.

During their visit, delegates toured the beautifully newly appointed villas, Moonstone Spa, and the property's state-

of-the-art fitness facility, while enjoying breathtaking views of Rodney Bay and Pigeon Island. The experience provided delegates with an opportunity to discover first-hand the exceptional accommodation, amenities, and beachfront setting that distinguish Sapphire Sands Villas within the Bay Gardens Resorts portfolio.

The experience also highlighted the property's culinary offering at Kimchi & Kallaloo (K&K), its Asian-Caribbean fusion restaurant and bar, alongside local entertainment.

Executive Director of Bay Gardens Resorts, Sanovnik Destang, described Sapphire Sands as an important milestone for the locally owned hospitality group.

"Sapphire Sands represents our first entrance into the five-star luxury market, built and operated by Saint Lucians for travelers who want to experience our island at its very best."

With butler service included in every villa, Sapphire Sands combines an elevated luxury experience with the warm, authentic Saint Lucian hospitality that has defined Bay Gardens Resorts for more than three decades.

For Commercial Director Anice O'Neil, that local connection is at the heart of the property's offering.

Bay Gardens Resorts Awards Scholarships to Children of Team Members

The Bay Gardens Resorts family recently came together to celebrate the achievements of the children of its team members who received awards through the Bay Gardens Resorts Secondary School Scholarship Programme. Staff and students gathered to recognise the dedication, talent and hard work of the young scholars, who continue to make their mark both inside and outside the classroom.

The scholarship programme reflects Bay Gardens Resorts' ongoing commitment to supporting the educational journeys and personal development of the children and legal dependents of its team members. Students entering Form 1 qualify with a CPEA average of 70% or higher, while scholars in Forms 2 to 5 can renew their scholarships annually by maintaining a minimum average of 70%, at least 90% attendance and good conduct.

Beyond academic achievement, the programme also rewards students who excel in areas such as sports, music, the performing and visual arts, community leadership, science and technology, and entrepreneurship through its Extracurricular Excellence Bonus.

"At Bay Gardens Resorts, we believe that investing in our young people is one of the most meaningful investments we can make," said Commercial Director Anice O'Neil. "Education opens doors, creates opportunities and provides the foundation for a brighter future. However, we also recognise that learning and personal development extend far beyond the walls of a classroom."

This year, three students joined the scholarship family for the first time: Kazan Mathurin, Kaitlyn Noel and Janique Harvey. Their inclusion marks another important step in the resort group's commitment to helping young people pursue their educational goals.

Returning scholars also demonstrated that excellence extends beyond the classroom. Nessey Jimmy, who runs track for Castries Comprehensive Secondary School and the Rockets Track & Field Club, and dances with the CD4L Dance Troupe, renewed her scholarship and earned the Extracurricular Excellence Bonus. Mya Prospere also continued her scholarship journey while training with the Sharks Swim Club and maintaining her academic responsibilities.

Anays Louis was recognised with the Extracurricular Excellence Bonus for her dedication to music and service. She plays with the Pantime Steel Orchestra and her school's Fusion Steel, while also serving as a member of the St. Lucia Cadet Corps.

These achievements highlight the diverse talents of the scholarship recipients and the importance of creating opportunities for young people to develop their interests, build confidence and contribute to their communities.

During her address, Ms. O'Neil reminded the scholars that challenges and disappointments are a natural part of growth,

encouraging them to approach difficult moments with patience and determination.

“A flower needs both sunshine and rain to grow and blossom,” she said. “The sunshine represents your achievements, your happy moments and the opportunities that come your way. The rain represents your challenges, your disappointments and the difficult moments you will inevitably experience. Sometimes, the very experiences that challenge us the most are the ones that help us grow the strongest.”

The Bay Gardens Resorts Secondary School Scholarship Programme remains an important expression of the organisation’s commitment to its team members and their families. By recognising academic achievement while encouraging excellence in other areas of development, the programme helps nurture well-rounded young people equipped with the skills and confidence to pursue their goals.

Congratulations to all our 2026 scholars. The entire Bay Gardens Resorts family is proud of you, and we look forward to watching you continue to grow, flourish and blossom.
