Inspired by the wisdom of our Taino ancestors, Ni Spa is a sanctuary where body, mind and spirit are nurtured in harmony with the natural world. Our name Ni, means “water” in the Taino language - a sacred element that flows through every healing ritual we offer. At the heart of our spa is the spirit of Atabey, our Taino mother of waters, fertility, and creation. She symbolizes renewal, balance, and the deep connection between humanity and the Earth.

Our logo honors Atabey’s sacred essence, reminding us of the powerful feminine energy that births life and restores peace. Through ancient - inspired therapies, natural elements, and holistic care, we invite you to reconnect with your inner self and the ancestral truth that still lives in our lands.

At Ni Spa, healing is not just a treatment - it is a return to who we are.
