- E. The Island Home 
- F. The Garden of Renewal 
- G. The Shadow Sundial 

# THE KODHIPPARU ISLAND DISCOVERY QUEST

*A shared journey of curiosity, connection and island stories*

Step into a gentle island adventure designed to bring families together in the most meaningful way. The Kodhipparu Island Discovery Quest invites guests of all ages to explore the island not by rushing from place to place, but by slowing down, noticing the small details and sharing moments that spark conversation, laughter and wonder.

This is an Easter experience where the island itself becomes the storyteller — guiding families through hidden corners, natural beauty and quiet reflections that turn simple discoveries into lasting memories

# AN EXPERIENCE DESIGNED TO BE SHARED

*At the heart of the Discovery Quest is a simple idea: families play together.*

Each activity encourages collaboration, curiosity and connection — rewarding thoughtful observation and teamwork rather than speed. There's no competition, no winners and no pressure — just time well spent, side by side.

# HOW THE ISLAND DISCOVERY QUEST UNFOLDS

## The Welcome Gathering *Beach Club*

The journey begins with a warm welcome, where families receive a beautifully illustrated island map and a small island pouch to collect their discoveries along the way. With map in hand and curiosity sparked, the adventure begins.

## Exploring the Quest Stations

Families follow gentle clues that lead them to seven story-led stations dotted across the island. At each stop, a simple shared activity invites everyone to pause, observe and connect — with nature, with the island's stories, and with one another.

Each completed experience is marked with a small symbol, collected along the journey as a reminder of moments shared.

# MOMENTS ALONG THE WAY

## The Lagoon Listener

At the water's edge, families pause in quiet together — listening to the rhythm of the sea, noticing colours, textures and the feeling of the island around them.

## The Palm Keeper

Among the palms, families explore nature's details, selecting and agreeing on the item that best represents island life.

## The Reef Guardian

At the Marine Centre, young explorers match reef life, solve a playful riddle and learn a fascinating marine fact from the island's experts.

## The Treasure of Small Things

Along the shore, families search for textures and shapes, sharing stories about what they find and why it matters.

## The Island Home

A cultural moment where families learn a Dhivehi word or island proverb and repeat it together, carrying a piece of local wisdom forward.

## The Shadow Sundial

On an open stretch of beach, families create a shared Easter-inspired shadow — a fleeting moment captured as a lasting memory.

## The Garden of Renewal

In the island garden, families nurture new life by planting a seed or watering a plant — a quiet symbol of growth and renewal.

# THE FINAL GATHERING

As the journey comes full circle, families reunite to add their collected symbols to a shared island mural — a visual reminder that while every journey is different, all are connected.

Many journeys. One island.

## A THOUGHTFUL FINISH

There's no leaderboard and no rush — just a joyful ending where every family is celebrated. Each participant receives a Kodhipparu Island Explorer Certificate and a small island keepsake, followed by a group photo and light Easter refreshments.

# STAY LONGER, CELEBRATE MORE

Pair the Kodhipparu Island Discovery Quest with our Maldives Stay Longer Offer and enjoy an Easter escape filled with meaningful moments, gentle adventure and unforgettable family memories.
