

DAY DREAM ISLAND

Living Reef Educational Experience

This program, based on Daydream Island in the beautiful Whitsundays, is an unforgettable experience for any student. Our team of marine biologists cater to your group to make sure students are receiving a memorable and educational experience. Stay in the islands luxury resort or visit for the day. Our team can accommodate all group sizes and ages.

Choose from a variety of 1 hour activity sessions: Marine Animal Encounter, Coral Restoration, Rainforest Walk, Presentations and much more.

To enquire or book contact:
livingreef@daydreamisland.com
Or fill out our booking form.

Activities

Animal Encounter - students interact and feed a variety of sea creatures and visit our underwater observatory.

Coral Restoration - students get a behind the scenes tour of the ex-situ coral nurseries while learning about the Lovers Cove coral restoration project.

Guided Rainforest Walk - take a quick hike to the top of the island and learn about island formation, Whitsunday history and ecology along the way.

Presentations - our team of marine biologists can design presentations unique for your school.

Spare Time - make use of the pool and sport facilities or self guided walks

Transfers

Cruise Whitsundays Ferry Transfers run several times a day from Port of Airlie to Daydream Island and returning. Ferry transfers are to be organised and booked by the school.
