## FRIZZANTI - SPARKLING WINES

### Champagne

*A Champagne winemaker's goal is to achieve complexity, and the most desirable notes of brioche and toasted bread. Refreshing acidity is balanced by a secret sweet recipe called "liqueur d'expédition". Made using the traditional method, as is Franciacorta, this is Italy vs France's greatest competition.*

## BIANCHI - WHITE WINES

### Sauvignon Blanc

*The grape gets its name from the French words sauvage (wild) and blanc (white). It is planted in many of the world's wine regions, producing in cooler climates, wines with noticeable acidity and "green flavours" of grass, green bellpeppers and nettles with some floral, such as elderflower notes. In warmer climates, it can develop more tropical fruit notes.*

### Sémillon

*The Sémillon grape variety originates from the Bordeaux region in France. This variety is also grown in countries such as South Africa, USA, Argentina, Italy, and Australia (which is the second largest producer of this grape after France). Broadly speaking, Sémillon starts as a light, lemon-citrus young wine and blossoms into one with loads of complexity, showing nutty, toasty notes once aged.*
