SINGLE MALT WHISKEY

SPEYSIDE

Broadly speaking, Speyside whiskies can be classified as falling into one of two camps. At one end of the spectrum there are the light, grassy, 'lunchtime whiskies' such as Glenlivet; at the other end lie the rich, sweet, sherried qualities of Balvenie and Macallan.

HIGHLANDS

Scotland's largest whisky region boasts a dizzying array of styles, from rich and textured to fragrantly floral, as befits an ever-changing landscape of coastline, moor, and mountain. Even without the famed Speyside enclave, you will find some of whisky's most famous names here – and some of its most fiercely individual spirits.

ISLAY, ISLE & ISLAND

The southernmost of its island chain, Islay is known as 'The Queen of the Hebrides' and is certainly the reigning monarch of a typically smoky, peaty style of single malt whisky. But there is much more to this beating heart of distillation, which has eight active producers – and more to come.

LOWLANDS

There is more distillation in the Lowlands than any other Scottish region, but its days as a significant single malt player are consigned to history. This is the home of the blend, and of the large quantities of grain whisky which form its foundation – but a few producers keep up the trademark light and grassy Lowland malt style.
