

Discover the environmental initiatives of Sofitel Brisbane Central that **eliminated single-use plastics** throughout the hotel.

LARGE FORMAT AMENITIES

In place of individual miniature bottles, Balmain's 400ml pumps were rolled out across the hotel, helping to eliminate single use plastics whilst simultaneously delivering French luxury.

DRY AMENITY PACKAGING

All in-room dry amenities such as combs, dental kits, cotton buds etc. are now in biodegradable cardboard packaging.

PLASTIC RECYCLING

The hotel's housekeeping team collects and recycles all plastic bottles left in guests' rooms and suites, resulting in a sizeable reduction in greenhouse gases, energy and landfill waste.

COMPLIMENTARY JUST WATER

Just Water bottles, made from plant-based packaging, are available complimentary to all guests.
