

# Environmental Policy Eastin Resort Rayong

Effective Date: 1 January 2026

At Eastin Resort Rayong, we are committed to running our operations in a way that respects the environment and supports long-term sustainability. As a beachfront resort, we understand the importance of protecting natural resources and preserving the local ecosystem for future generations. We continuously look for practical ways to reduce our environmental impact through improvement, teamwork, and responsible practices.

## Our Commitments:

1

### Energy Conservation

We aim to reduce energy use by:

- Using energy-efficient lighting, equipment, and systems across the resort
- Carrying out regular maintenance to ensure everything operates efficiently
- Encouraging both staff and guests to be mindful of energy consumption

2

### Water Management

We work to manage water responsibly by:

- Installing water-saving fixtures in guest rooms and public areas
- Promoting towel and linen reuse programs
- Monitoring water usage and fixing leaks without delay

3

### Waste Reduction and Recycling

We focus on reducing waste by:

- Minimizing single-use plastics and offering eco-friendly alternatives
- Separating waste and supporting recycling
- Working with suppliers to reduce packaging and choose reusable options
- Taking steps to reduce food waste in our operations

4

### Sustainable Sourcing

We support responsible sourcing by:

- Choosing locally sourced and seasonal products whenever possible
- Selecting environmentally responsible products and suppliers
- Supporting fair labor and ethical business practices
