

 PRECISE HOUSE
M a n t e g n a R o m a

Change Your Point of View

At Precise House Mantegna Roma, the monumental meets the intimate, the structured meets the unexpected.

Inspired by the visionary techniques of Andrea Mantegna, the hotel is conceived as a space of shifting perspectives where architecture, light, and experience invite guests to see beyond the obvious.

THE HOTEL

A duality defines the space: monumental in presence, layered in depth, light, and perspective.

The architecture reflects strength and clarity: an environment where business thrives. Inside, the space opens into a more fluid experience, where carefully designed “breaches” of light and layered volumes create movement and discovery.

This interplay between structure and openness defines the guest journey—grounded when needed, expansive when desired.

ROOMS & SUITES

Designed with both productivity and comfort in mind, the rooms offer a calm, functional retreat within the city.

From refined double rooms to spacious triple accommodations ideal for colleagues, each space supports the rhythm of modern travel whether preparing for meetings or unwinding after a day in Rome.

Natural light, clean architectural lines, and occasional private balconies create moments of pause, quiet intervals within a dynamic schedule.

DINING

Dining reflects the same philosophy of clarity and perspective.

Rooted in Roman culinary tradition and open to international influences, the offering unfolds across a buffet restaurant, an à la carte dining experience, and a lobby bar serving light meals throughout the day.

Each adapts seamlessly to different moments, from efficient business lunches to more relaxed evening gatherings.

WELLNESS

The wellness spaces offer a calm, structured environment where guests can disconnect from the pace of the day.

A fully equipped gym, indoor pool, sauna, and hammam create a complete circuit of movement and release. Olive oil-based treatments, rooted in Mediterranean tradition, nourish and restore through simplicity and care.

MEETINGS & EVENTS

At the core of the hotel lies a purpose-built events environment, anchored by a spacious auditorium accommodating up to 600 delegates and supported by a versatile network of breakout rooms.

Designed with both precision and flow in mind, the venue integrates distinctive architectural features including vehicle-accessible spaces, dedicated foyers, and seamless indoor-outdoor transitions allowing each event to evolve effortlessly between formats.

From high-level conferences to product launches and immersive brand experiences, the space adapts with clarity and confidence.
