Incu, as the Worth was headed towards an uneven recovery, the Group was required to demonstrate agility in response to the rapidly changing circumstances on various fronts of the business. This entailed re-strategizing and managing the Group's financial and operational resources to meet region-specific demands as and when their markets gradually opened up for travel. Whilst recovery trajectories within our international source markets vary, all Serena properties have and will continue to rely on the domestic and regional markets that patronized our units for leisure and corporate travel.
