ACQUAPURA SPA

„Acqua pura“ means „pure water“ and is the essence of the spa worlds in the Falkensteiner Hotels & Residences. Water revitalizes, relaxes and promotes physical wellbeing - it is not without reason that it is considered the elixir of life. From a spiritual point of view, water is assigned to the second energy centre, where creativity, wishes and dreams are anchored.

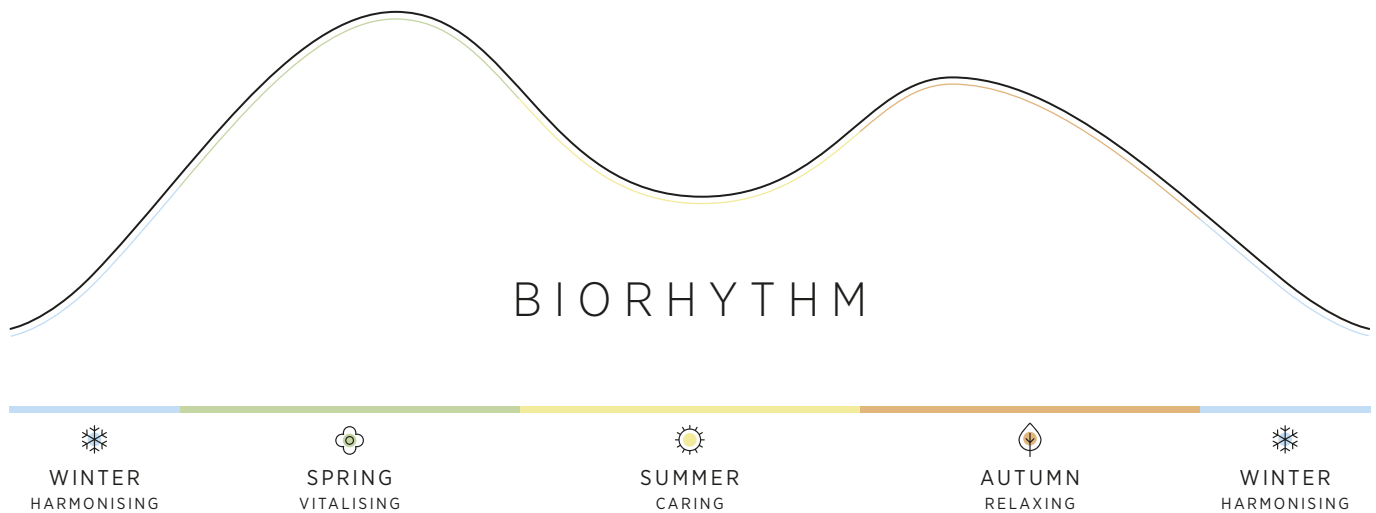

It strengthens the ability to get involved with things and to flow with them. If you connect unconditionally with the element water, this promotes the ability to better accept the unknown and to imagine the future in new ways.

Inspired by living in harmony with nature, everything flows together smoothly in the Acquapura SPA. Here, space is created for free thoughts and inner balance. A pure, holistic spa experience, which above all should create positive states of mind, relaxation, pleasure, joy, health and vitality. The Acquapura SPA is a place where you can rediscover your own centre and simply surrender to the moment.

THE ACQUAPURA PRINCIPLE

Overwhelmed by the complexity of everyday life, many people have partially forgotten to live in harmony with nature and themselves. The Acquapura principle is therefore geared towards personal balance and the natural biorhythm of life. These distinct, rhythmic phases reflect the course of the day and mirror the seasons.

All Acquapura SPA Treatments & Rituals are based exclusively on natural products, combat personal imbalance, and are tailored to individual needs. Energising and vitalising, nourishing and calming, relaxing, balancing and harmonising, or clear and pure.

PHARMOS NATUR

Green Luxury cosmetics for health, beauty and joie de vivre, inspired by the unique potential of mother nature. Pharmos Natur uses highly valued plants with medicinal and rejuvenating properties from all over the world and combines the complex active ingredients in a sophisticated way. All active ingredients are adaptogenic, which means they know where and how to work best.

The SACRED PLANTS are processed carefully and holistically. Their rich active ingredients, intense light energy and strong vibrations are contained in the valuable care products. What's special about them is the use of ingredient-rich aloe vera instead of water, without the addition of alcohol and without classic preservatives.

A close-up photograph of a flowering magnolia tree. The image is filled with numerous large, light pink flowers with multiple petals, some fully open and others as buds. Dark, woody branches crisscross through the flowers. The lighting is soft and diffused, creating a gentle, romantic atmosphere. The background is a pale, hazy white, suggesting a bright day with overcast skies.
