LET'S TAKE CARE OF OUR FORESTS

Thanks to the strategic alliances carried out by Porta Hotels, on Friday, May 21, an activity was organized to reforest the Green Belt of La Antigua Guatemala, together with the Antigua Viva team, the National Institute of Forests (INAB) and the Municipality of La Antigua Guatemala

WE ARE RESPONSIBLE FOR TAKING CARE OF OUR ENVIRONMENT

It seeks to reseed the empty spaces of Cerro de la Cruz, which have been left without trees due to forest fires or fires caused by unscrupulous people who have not realized that trees are a source of water and oxygen, essential for everyone living beings

Participating in these activities is part of our commitment to comply with the corporation's environmental programs, to contribute to the 2030 Sustainable Development Goals and above all, to generate environmental awareness in our community

We are all in charge and susceptible to climate change
