

We're always on the hunt for a new vibesy spot.

To the rescue: The Jamaica Pegasus' newly renovated pool, bar, and lounge.

The over-US\$1-million transformation project was revealed last Friday in a ribbon-cutting ceremony led by Minister of Tourism Edmund Bartlett, and the upgrades are as indulgent as it gets. That it's located at one of the metropolitan's most distinguished names for business and leisure hospitality is just one of the draws. The edited pool bar fare and beverage menu is another. But it may be the addition of a sun lounge deck and the promise of the popular Let's Lyme at the Poolside Friday night series that'll make it a favourite with the style set.

Plus, it was a Rock link-up in Ghana, as *Abbott Elementary* star Sheryl Lee Ralph joined Vice-President of the United States of America Kamala Harris for a tour of the Vibrate Space, a community recording studio for young artistes in Accra, Ghana. Harris is on a seven-day African visit that will also take her to Tanzania and Zambia.

In Sync
Members of the Island Aquatics Synchro Club's cadence action were aesthetically pleasing!

In The Cut
VM Group President & CEO Courtney Campbell and chartered accountant Sheryl Cameron were out to support.
