

Sustainable Purchasing Policy

At CVK Hotel & Resorts, we adhere to a sustainable procurement approach that prioritizes partnering with solution providers who have robust Quality Management Systems, environmental and Occupational Health and Safety Management Systems, and internationally recognized environmental and sustainability certificates. We ensure that our partners production and supply processes have no detrimental effects on the environment and that they utilize resources appropriately without harming species diversity, wildlife, or including any illegal hunting products in the supply chain.

Moreover, we encourage our partners to minimize waste and manage it correctly, offer products with less packaging, or provide bulk packaging alternatives. We also encourage them to offer eco-friendly, cost-effective, locally-sourced, and ethically-produced alternatives using recyclable or recycled materials, organic, bio, vegan, untested on animals, and free of harmful chemical components.

We prioritize domestic and local production and service providers that offer products and services that reflect and promote the cuisine, traditions, and culture of our country/region and we communicate this to our stakeholders We strive to create efficient purchasing opportunities with our suppliers and aim to reduce the environmental impacts that may arise from our procurement processes.
