ACQUA PURA SPA

The holistic and balancing effect of water on the body and mind

“Acqua pura” means “pure water” and, as such, represents the essence of the Spa worlds in the Falkensteiner Hotels & Residences. Here, the healing effects and the versatile benefits of this elixir of life are the focus.

Water has a hydrating, purifying, balancing, and toning effect. On the one hand, no other element than water is so felt in our Spas, when one considers the different forms it takes. It serves as a comfortably warm invitation to swim and let oneself drift, in the form of ice for

infusions and subsequent cooling, as well as a deeply effective experience in the steam bath. On the other hand, water is perceived as a multi-sensory experience.

Hearing, seeing, feeling, tasting: the sound of gentle waves, weightless floating, a gentle embrace enveloping the body, and the enjoyment of cold, clear water as a thirst quencher – water revitalizes, relaxes, and enhances the well-being and resilience of the body and mind in a holistic and natural way.

Inspired by a life in harmonious balance, the concept of „Flow“ describes the ideal state of inner equilibrium. This is achieved when the four phases of harmony, clarity, release and energy are in a balanced relationship with each other.

Water has the power to bring us precisely there: the natural rhythm of the waves aligns with our emotional state and has the ability to gently influence it. Calm, steady waves, for example, have a soothing effect, while strong waves possess an energizing and revitalizing essence.

Depending on the emotional state you wish to attain or which (wave) phase you lack, in order to reach your personal flow, we select tailored treatments to let you achieve this ideal state.

The Acquapura SPA is your source of well-being. A place where you can unwind, discover your individual balance, and let your thoughts flow. What matters here is rediscovering your inner center.
