

## At a Glance

Amsterdam Manor Beach Resort offers a sunny, warm “Bon Bini” welcome to families, couples or individuals in need of an escape. The Dutch colonial architecture, with its lively color and cozy courtyards, will help savor the charming Dutch Caribbean atmosphere. The AAA Three Diamond and pet-friendly resort offers six different room types among its 72 studios and suites, currently undergoing a floor to ceiling renovation. From the moment they arrive, guests are sure to feel right at home on the friendly island thanks to the family-owned touch and the quality of personalized service during their stay at Amsterdam Manor, which sets this boutique resort apart from Aruba’s modern high-rises.

## Location

Nestled in the west coast of Aruba and steps away from award-winning Eagle Beach, the resort is always soaking up sunny year-round weather at a constant 82° F temperature with low humidity and refreshing east trade wind breezes, making it the perfect oasis to watch the Aruban sunset. With a central location, the resort is minutes away from historic downtown Oranjestad – where you can explore various restaurants, shops, and casinos – and is a short 15-minute drive from the Reina Beatrix International Airport.

## Refreshing Accommodations

The resort has 72 rooms that are currently undergoing renovations. With bright Dutch Caribbean colors and a setting that will make guests feel right at home, each of our hotel rooms comes fully equipped with a modern kitchen (including a stove, refrigerator, microwave, and coffee maker), in-room safe, hair dryer, iron and ironing board, balcony or terrace, cable television, Wi-Fi, locally made Aruba Aloe toiletries, air conditioning, ceiling fan, direct dial phones and king or queen-sized beds.

New additions include custom made mosaic tile flooring, new rustic furniture, better lighting, upgraded ventilation systems and more. Following the renovation project, all rooms will have air purifiers to circulate 50% cleaner air throughout your room, while also trapping allergens. Upgraded ventilation systems will have been installed in all rooms to regulate the quality of the air by regulating humidity and CO<sub>2</sub> levels through Healthbox 3.0, which checks the air quality 24 hours a day.

## Eco Friendly Efforts

This green resort is the first to meet the Master Certification requirements of the EarthCheck Company standards and is still instilling more programs to protect Aruba’s flora, fauna and marine life for present and future generations. The Amsterdam Manor takes responsibility for the use of our water, energy, and land, through monthly beach clean ups, reduction of single use plastics, and more.

Travelife is an international sustainability certification, where tour operators and accommodation providers work in partnership to protect the environment and the well-being of people – including their staff, customers, and suppliers. Amsterdam Manor Beach Resort holds a Travelife Gold award, which reflects our desires to be sustainable leaders and pave the way for other hotels to join the same effort. As an award-winning eco-friendly beach resort, we are constantly looking for new opportunities for improvement.
