# The best place to store wine is memory.

Dear Guests,

We see ourselves as a place where tradition and modernity meet – a philosophy we hope to reflect in our wine list. We aim to offer an equal platform to smaller, lesser-known winemakers with a strong focus on sustainability, and the renowned, traditional estates that have helped to pave the way for them.

When choosing our products, we try to think as locally as possible, looking first to the very best

that our region has to offer.

We set great store by natural, honest, perhaps even polarizing approaches to winemaking – and we hope that you too will be open to trying something new with us.

We believe that wine simply tastes better when it tells a story, when it is produced by a vintner who respects the land on which they work.

To help you make your choice, you will find each wine accompanied by a compact description using

## #Hashtags

All our wines contain natural sulfites. We offer a selection of wines that are unfiltered, vegan or low-histamine, and wines containing no added sulfites – please ask us for further information.

Bottle size 75cl, unless otherwise specified. Prices in Euro (€), including VAT and tax.
