Spring Creek Past, Present, and Future

Building on family heritage, the Spring Creek land has been in developer Frank Kernick’s family since 1927. His grandparents operated a modest dairy farm until the 1950s, when it became a camp for the workers constructing the Trans-Canada Highway. It then evolved into Restwell – a mobile home park and campground.

With its unmatched location bordered by two spring-fed creeks at the heart of downtown Canmore, it was only natural for the site to evolve into the town’s premier residential and commercial community.

The master plan for Spring Creek’s 70 acres includes a mix of homes for every age and every stage of life, all melding high standards of craftsmanship and environmental sustainability with the architectural character right at home in this magical mountain town. Spring Creek’s spaces are being sculpted with pedestrians in mind: flat, highly walkable pathways, plenty of places to gather and visit, and around every corner, an uplifting view.

A clear commitment to sustainability is among the many things that set Spring Creek apart. Sustainability in community development is about continual optimization to meet the needs of its residents – health, social, and economic – while protecting the ability of the environment to provide the foundation for our future. Spring Creek continues to lead with environmental advancements in the community and was the first to certify for the BUILT GREEN® Communities Program in Canada. Spring Creek will continue to work towards a greener future in all our projects.

The heart of Spring Creek Mountain Village beats on in this continuous, cyclical effort to be a green and healthy place for people of all ages to live, visit, work, and thrive.

Mountain Adventures & Exploration

CANMORE AND BEYOND

Welcome to our alpine paradise of adventure & exploration. From its humble beginnings as a railway town and then a mining town in the late 1800s to today, Canmore has become a mecca of outdoor adventure and relaxation.

Springtime in the valley is a season of immense change, transforming Canmore, Banff, & Lake Louise as the snow gives way to spring water run offs and waterfalls - creating a wet and muddy playground.

April brings plenty of snow and mild temperatures in high elevations for comfortable downhill ski conditions that last until mid-May. May in the Kananaskis area transitions to camping, hiking, and sometimes golfing. With June being the start of patio weather, locals and visitors embrace the day in t-shirts and shorts and sweaters in the evening.

Consult with one of our concierge team members to plan your adventure.

WHAT TO WEAR

“There is no such thing as bad weather, only poor choices of clothing.”

- Canmore locals

The trick to being comfortable outdoors is to dress in layers with a t-shirt, sweater, and a wind and waterproof jacket. Proper footwear includes flat-soled hiking or winter boots. Sunglasses are recommended and don't forget to pack a bottle of water, light snacks, and your camera.

Do not let lack of gear keep you from one of our most rewarding experiences. Consider bringing shoe spikes/ice grips for uncertain spring conditions. Canmore also has sports stores and rental shops to help. Please see our concierge team for information on where to rent or purchase gear.

Regenerative Travel in The Bow Valley & Canadian Rockies

Here in Spring Creek, surrounded by the breathtaking views that we call our backyard, we realize that we can't take this land for granted. Creating a greener, healthier community has always been our driving motivation.

"We were one of the first to adopt geothermal technologies in Alberta to meet our goal: to create a truly sustainable mountain community; this is a nod to my parents and grandparents and to Canmore—a legacy for the town in which I grew up."

- Frank Kernick, Founder, President & Developer of the Spring Creek Community

This drive is for the adventurous soul. This drive is best for high clearance vehicles such as pickup trucks, Jeeps, or SUVs. Before heading out, please visit the hotel concierge for maps and updated road conditions. The drive can be treacherous at times and is periodically closed for avalanche control. The drive starts on Spray Lakes Road (just past the Nordic Centre). After the Grassi Lakes trailhead, the road becomes unpaved and often unmaintained. Drive carefully as the road starts to climb up past the tree line on the shoulder of Mount Rundle, and back down to the backside of Mount Lawrence Grassi. Follow this gravel road until you reach the junction for Peter Lougheed Provincial Park and then turn left. You then take a second left onto Hwy 40. Keep driving until the Hwy 1 (Trans Canada) exit and head west back to Canmore. Highlights include Quarry Lake, Grassi Lakes, Whitemans Pond, Spray Lakes Day Use Area, Mt. Shark Day Use Area, and Chester Lake.

KANANASKIS HIGHWAY Hwy 40 South to Upper Kananaskis Lakes

This is for the laid-back driver looking for views along a smooth and easy day drive. From Canmore head east on the Hwy 1 (Trans Canada) and turn South onto Hwy 40 (Kananaskis Highway). This is the same turn-off as the Casino (easiest landmark to spot). This is where the drive gets very scenic. Be on the lookout for wildlife as well. Deer, elk, goats and bears can frequently be spotted along the highway (there is no guarantee of seeing them however). The road continues to wind to both Lower and Upper Kananaskis Lakes. Highlights include Barrier Lake Day Use Area, Kananaskis Village, Boundary Ranch, Fortress Junction, Peter Lougheed Park Discovery Centre, and the Kananaskis Lakes.

Scenic Drives - Banff & Beyond

THE BOW VALLEY PARKWAY Highway 1A

This is a scenic drive between Exshaw and Lake Louise on highway 1A with multiple breaks and many points of interest along the way. Highlights include Grotto Canyon where you will find rock climbers and an Inukshuk rock garden, Johnston Canyon, the memorial in honour of Ukrainian internees, and the scenery of poplar forests, peaceful meadows, and the Bow River. It will add an additional 2 hours from South of Canmore to Lake Louise, but it is a much more beautiful drive than the main highway. If possible, we recommend driving this road early in the morning or at dusk, as you will be more likely to see the wildlife.

THE ICEFIELDS PARKWAY Highway 93 North

Year after year, this drive ranks near the top of the list of Most Scenic Highways in the world as voted by National Geographic. It winds beside peaceful lakes and rushing rivers overlooking snow-capped mountain peaks and majestic glaciers. Points of interest include the Columbia Icefields Centre, Bow Lake, Peyto Lake, Mistaya Canyon, Sunwapta Falls, Athabasca Falls and many more! Along the way keep an eye out for wildlife including elk, mountain goats and bears!

HIGHWAY 1 WEST & YOHO NATIONAL PARK

In the beautiful province of British Columbia just west of us lies the rugged and untouched beauty of Yoho National Park. Accessible by Highway 1 West, Yoho is home to the rich-green coloured Emerald Lake, the natural rock formations of the Natural Bridge, and the incredible power of Takakkaw and Wapta Falls. This is a great option for a full-day outing.

HIGHWAY 93 SOUTH AND KOOTENAY NATIONAL PARK

A popular wildlife corridor, Highway 93 South leads you to the unique Kootenay National Park. One of the worst fires in the Rockies' history ravaged through this area in 2003 but there's proof that beauty can come from ashes as the scenery is now a photographer's paradise with charred wood juxtaposes, vibrant green vegetation, and glorious blue waters. Points of interest include Stanley Glacier, Marble Canyon, and further south the town of Radium's famous hot springs. Its hot mineral water is odorless and clear, perfect for a relaxing soak. Kids will enjoy swimming and diving in the cooler swimming pool (27°C). Visit south-eastern British Columbia's largest day spa in Radium. See if you can spot one of the bighorn sheep that make this canyon home.
