Bay Gardens Resorts Joins Global Hospitality Leaders at HITEC 2026 & HSMCI Commercial Strategy Conference

Bay Gardens Resorts recently joined thousands of hospitality leaders at two of the industry's most prestigious events, HITEC 2026 and the HSMCI Commercial Strategy Conference held in San Antonio, Texas, offering an unparalleled opportunity to explore cutting-edge technology, sharpen commercial strategy, and position our properties at the forefront of hospitality innovation.

Produced by HFTP (Hospitality Financial and Technology Professionals), HITEC (Hospitality Industry Technology Exposition and Conference) is recognized as the world's largest hospitality technology event, drawing more than 6,000 industry professionals and over 400 exhibiting companies showcasing the latest advancements in artificial intelligence, property management systems, revenue management, guest experience technologies, cybersecurity, and digital transformation. The trade show provided a valuable hands-on opportunity to evaluate emerging technologies and engage directly with vendors offering practical solutions to many of the operational challenges facing Caribbean hotels today. Educational sessions delivered further insights into how forward-thinking hospitality businesses are leveraging technology to drive efficiency, improve profitability, and exceed guest expectations.

The co-located HSMCI Commercial Strategy Conference explored the evolving intersection of sales, marketing, distribution, and revenue management, with industry executives sharing strategies for maximising revenue performance, strengthening direct bookings, and adapting to shifting consumer behaviour all highly relevant conversations as we continue to grow our commercial approach across our properties.

A particularly exciting highlight was the continued development of the newly established HFTP Saint Lucia Chapter. Formed in 2026, this chapter creates a dedicated platform for hospitality finance and technology professionals on the island to collaborate, access professional development opportunities, and strengthen Saint Lucia's presence within the global hospitality technology community.

Our participation in these events reaffirms our unwavering commitment to innovation, continuous learning, and operational excellence. The connections made, technologies explored, and strategies discussed will directly inform how we enhance efficiency, elevate guest satisfaction, and drive long-term success across our properties.

Bay Gardens Resorts Inspires Young Women Through Babonneau Secondary School Partnership

Bay Gardens Resorts was proud to host the closing social activity for the Babonneau Secondary School Girls After School Programme on Friday, June 26, in the Lantana Conference Room at Bay Gardens Hotel.

The event celebrated the participants' achievements throughout the programme and recognized the milestones they have achieved. BAY GARDENS MARINA HAVEN

“Peaceful”

Reviewed by Nicole R (June 2026)

This is a great place to come if you are trying to just relax and not looking to be near a big crowd. It’s a small inn with some staff that go above and beyond like Arnold the bartender even though he is always doing more than that and the same goes for Ms. Marshall. She helped me with anything that I needed while I was there and knew me by name. Everything you need is close by and you have access to the other Bay Gardens Hotel and resort at no cost and a shuttle is provided.
