SETTLING IN

We understand that everyone in the building will be living away from their family and friends for the time that they are with us, so we encourage you to become involved in our Residential Life Program, so that you will make new friends and begin to feel more 'at home'.

If you are having difficulty settling in, our staff are here to help you! Please come and see us if only for a chat! We also have many students from different backgrounds who are going through the same experiences as you.

Most students coming from overseas experience a certain amount of 'culture shock'. The people, the weather, the food, and the buildings may be new, and it may take you a little time to get used to your new surroundings.

UniLodge @ RMIT Bundoora – Walert House would like your stay to be a happy and prosperous one.

 - Basic establishment tasks e.g. setting up bank accounts etc.

UniLodge staff are here to assist you with all these issues and more. Feel free to pop down to Reception, email or call us. We will be happy to give you any information or support that you may need.

Financial Problems

If you are experiencing any financial difficulties, please speak to the [Property Manager – Operations](#). Often, these difficulties can be managed by the implementation of a financial plan to assist with rental payments. In addition, universities have their own Student Financial Service Unit usually managed by a Student Services Department that can assist with broader living expenses. [RMIT Connect can provide helpful information on financial assistance.](#)

What is Residential Life?

Residential Life is an integrated, contemporary, Residential Life Program, run by UniLodge for our Residents. It is designed to support and bring out the best in each resident through the duties and activities carried out by Residential Advisors, and the Residential Life Manager.

UniLodge's Multicultural Vision

We promote a culture of mutual respect, tolerance and celebration of diversity. We aim to provide opportunity for the building of cross-cultural understanding and friendship. We aim to create an environment where everyone feels respected and looks out for everyone else. A community where residents feel they belong and can share a sense of family and friendship. We aim to provide opportunities for residents to interact with, learn from, and value everyone.

What does the Program Aim to Achieve?

It offers a balanced program of activities that supports Resident life across many dimensions such as: standard of living and quality of life, mental and physical health, academic and personal achievements, personal and social relationships, safety and security and community connectivity.

What Types of Activities Underpin the Residential Life Program?

- Socially responsible activities such as getting residents involved in raising much needed funds for a charity or participation in community-based activities.
- Barbeques and nights full of entertainment which encourages integration, fun and friendship.
- Trips to Aussie fun spots - go surfing, indoor rock-climbing, trips to great Australian icons.
- Educational and special interest forums, seminars and focus groups.
- Life skill sessions such as budget workshops, interview skills, and resume writing workshops.
- Game nights and movie nights.
- Sporting activities such as netball, basketball, footy, cricket – it's up to you!
- International parties and cultural activities.

Attending Events

Attending and signing up for events is easy. You can register for events via the UniLodge Resident Portal. The wide range of events will be loaded via the UniLodge Resident Portal for the upcoming months so you can see what events are coming up and choose the ones you wish to attend. So simple! Our Residential Life Team can assist you or answer any questions you may have.

Photos at Events

Photos at Residential Life events will be taken, and from time to time we will use these to post on social media or in marketing materials. If you would like us to remove a picture of you, please contact reception. By allowing your picture to be taken at events you are allowing it to also be used in social media and/or promotional merchandise.

Living Together @ UniLodge

Proactive Communication

Living with someone requires a balance of mutual respect, cooperation, and consideration. The best way to create this atmosphere? Proactive communication, which is the essential foundation for successful roommate relationships – really, for all relationships!

TOPICS OF CONVERSATION

Get to know each other to cut down on the feeling of living with a “stranger.”

- ▶ **Where are each of you from?**
- ▶ **What do you each like to do for fun?**

If you already know each other, then get reacquainted. Catch up on what classes you'll be taking, activities you'll be involved with and jobs you might be starting.

Discuss right away what each of you wants and needs in order to live together peacefully – don't wait until a problem comes up. Some examples:

- ▶ **How do each of you like to study; with background music/TV on or in total silence?**
- ▶ **What about your sleeping styles; do you need the room as dark as possible or is some light OK?**
- ▶ **What sets you off?**

By the way, this step is crucial with any roommate, whether you've just met or are friends who have known each other for years. In fact, many students find living with a friend can be tough at times – they can get nervous speaking up about issues for fear of losing a close friend. Ironing out these details at the start can help you avoid or minimise many problems.

TIP: It's a good idea to write down what each of you needs and agrees to. This is known as your Roommate Agreement. You can refer to it later if you ever need to remind yourselves of what was said.

YOU CAN BE FRIENDLY WITHOUT BEING FRIENDS

While it can be great when roommates are also friends, don't expect that to happen. The main goals are for you to live together peacefully and respect one another. Ultimately, that's what makes a true roommate relationship work.

Resolving Conflicts

Don't be discouraged if a roommate is doing something that bothers you, or vice versa. This is inevitable at some point in any shared living arrangement. Make note of these Do's and Don'ts to address situations most effectively...

DO:

- Bring concerns up right away
- Use “I” statements to describe how you feel
- Avoid generalizing behaviors unfairly with words like “always” or “never”
- Be specific so your roommate understands exactly what you need

DON'T:

- Drop hints; many people won't pick up on them and you'll get frustrated
- Resort to social media or text message; be discreet yet direct
- Delay bringing up an important issue; you'll only get more upset
- Bring up a long list of issues all at once and overwhelm your roommate

SAMPLE STATEMENTS

DO SAY:

“I have a hard time sleeping with bright lights on. Could you please use your desk lamp after midnight instead of the ceiling light?”

Very clear and fair.

DON'T SAY:

“Ugh, I'm so tired, I haven't been able to get a good night's sleep all week.”

Too vague.

“You're always so rude! You don't even care that I haven't slept well for a week!”

Too heated. Plus, it sounds like other issues besides sleep have been bothering you. Bottling things up until you explode won't help anyone.

CAN'T I JUST SWITCH ROOMS?

Seems like the obvious solution, doesn't it? Not so fast. Not only can space on campus be limited, but roommate conflicts will follow you if you're not willing to anticipate them beforehand and resolve them once they happen. Many students are surprised when room changes don't solve their problems – sometimes, things are worse! Try working it out with your current roommate(s). If there's no improvement, speak with residential life staff for assistance.

To assist residents living in multi-share apartments, our Residential Advisors are able to host flat meetings with you and your flatmates if requested. This meeting will result in the signing of a written flatmate agreement for the apartment to abide by. If you join a multi-share apartment which has already signed an agreement, you will have an opportunity to agree to the existing agreement or request another flat meeting.

Academic Support

If you have an academic problem, talk to us as soon as it arises – don't leave it until it is too late! Should you have any concerns regarding course and subject selection, preparation for examinations, dealing with tutors and lecturers, [applying for special consideration](#) due to sickness or family troubles – we can help to refer you to the relevant department or faculty that will be able to resolve any issues. As a resident you will experience differing levels of stress at various times, particularly around examination time. We are here to provide a climate in which you can maximise your academic achievements. If you are experiencing noise related problems that are affecting your study, please advise us immediately. **Residents must always be tolerant of other residents' study habits.**

Multi-share Cleaning

Each fortnight, the kitchen and lounge room areas of multi-share apartments will be cleaned by professional cleaners. Cleaners will be addressing the following areas:

- Stovetop
- Oven
- Microwave
- Range-hood
- Glass splashback
- Spills in the fridge
- Living area floor

You will be notified of the cleaning schedule for your apartment after you have moved in. The cost of this service is included in your fees.

Residents will still be responsible for:

- Disposing of any rubbish (including old food)
- Cleaning bedrooms
- Cleaning bathrooms
- Wiping everyday surfaces (such as the bench, table, coffee table, shelves around the TV).
- Washing dishes

Complaints

Life in a community means that sometimes challenges can arise that are difficult to manage on your own. You might have a problem with a fellow resident, staff member, or a decision that has been made by UniLodge management. If you do come across some difficulties at Walert House, don't hesitate to contact the Residential Life Manager or the Property Manager – Operations or the General Manager. In most cases, problems can be resolved through informal enquiries and discussions.

Here are the steps to follow if you need help to resolve a problem:

Step 1 – Try to address the situation with the resident first. If you do not feel comfortable talking to the resident, then continue to step 2.

Step 2 - If the problem is not resolved after step 1, contact the Residential Life Manager (reslifemgr.rmitb@unilodge.com.au)

Step 3 - The Residential Life Manager or UniLodge Management will assist you with working through the situation. If UniLodge management make a decision related to your complaint, you are able to have the decision reviewed by the General Manager. An appointment to speak with the General Manager may be made at reception. Should you wish to appeal a decision, or where consideration of the complaint by the General Manager is not appropriate, the matter may be reviewed by the UniLodge Chief Operating Officer.

In addition to the above, you have the right to an external review may seek the advice of any relevant independent 3rd party, such as the Victorian Ombudsman.

In the event of a false alarm that is caused by interference with a smoke detector, Fire Rescue Victoria has it within its powers to levy fines and commence prosecutions (current fines exceed \$3,000). You may also be responsible for the cost of repairs to the system that this damage may cause.

Prior to departure, a **\$130** compulsory cleaning fee will be charged to your account. This fee must be paid at reception prior to your departure. This fee covers the cost of:

- a professional clean, and

- wipe down all surfaces
- vacuum and mop floors
- clean shower walls and floors of stains, grime and build up
- clean the toilet bowl and lid
- empty the room of all contents, as well as the fridge and freezer of food

Glass

Please note the following suggested points for the care and maintenance of the glass in your apartment.

WHAT NOT TO DO

- Do not store or place items in contact with the glass (this can damage the glass or create a heat trap leading to thermal breakage).
- Never use abrasive cleaners on glass. Scouring pads or other harsh materials must not be used to clean windows or other glass products. Powder based cleaners are to be avoided.
- Avoid causing extreme temperature changes as this may lead to thermal fracture of the glass (i.e. Do not splash hot water on cold glass, or freezing water on hot glass). Some tapes or adhesives can stain or damage glass surfaces. Avoid using such materials unless they are known to be easily removed.

Heating

There is a heater installed in your apartment. At no time should this be covered or obstructed in any way. Clothing and laundry cannot be hung over the heater as this is a dangerous fire hazard.

Cleaning

A wipe over with a clean, soft damp cloth should be enough to keep all countertops and surfaces clean. Soiled surfaces or light stains are best removed with warm soapy water or with a common detergent, such as Mr. Muscle, Nifty Solvent or bathroom cleaner. Wax or other polishes are unnecessary and should not be used.

Bathroom Floor Cleaning

Sweep up dust and dirt. Use a microfibre mop to apply a diluted alkaline cleaning solution to the floor. Scrub with a deck scrubber cleaning pad. Rinse the floor with warm clean water, removing the dirty water from the floor with a microfibre mop and allow to dry.

Appropriate Use of Kitchen Surfaces

When cooking utensils please use heat pads and cutting or chopping boards, as this could damage the countertops and surfaces. Sliding of heavy objects can cause scuffing of the surface.

Residents will be charged for any damage that occurs or replacements to the countertop and surfaces. Residents are asked not to remove from their apartment any item or equipment that has been provided by UniLodge.

Lithium Battery Safety

- Charge your battery on a hard surface
- Charge batteries only when you are home and not while you are asleep
- Don't use the battery if it is swelling, leaking, overheating
- Dispose of the battery in the marked bin near reception, or at a local disposal location so that they don't end up in landfills
