JARDIN EN PERMACULTURE
DOMAINE DE MANVILLE

Commitments

The Domaine de Manville works daily towards responsible luxury centered around permaculture, a concept aimed at creating ecosystems around nature and humans. We transmit our values every day through a comprehensive approach to waste valorization, active participation in the biodiversity of the Alpilles with our agro-ecological farm, and thus the development of short circuits on the Domaine's land or with our local producers.

L'AUPIHO
DOMAINE DE MANVILLE

I invite you to freely compose your menu from my creations, guided by the seasons, the vegetable garden of our agroecological farm, and the work of our small producers. Let your desires guide you through a living menu, blending local cuisine with Flemish influences.
