

SUSTAINABILITY REPORT

april - june 2021

certifications

Hotel San Jorge is the youngest property of the corporation, it began operations in November 2020 and on last May, it obtained the INGUAT Biosecurity Seal and the WTTC Safe Travels Seal, thanks to the effort of the team and the fulfillment of the Porta Hotels Corporation quality objectives.

environment

In May, Porta Hotels planted **500 trees** in Cerro de la Cruz in alliance with Antigua Viva and the Municipality of Antigua Guatemala.

This raises environmental awareness in our collaborators and community, promotes social responsibility and fosters new alliances in environmental projects.

SUSTAINABILITY REPORT

april - june 2021

culture

During the second quarter of 2021, we have carried out six cultural activities, such as photography exhibits, talks, creation of traditional sawdust carpets and a dessert fair. With them we have reached 11,595 people between guests, diners, visitors, and the community.

climate protection

During the second quarter of this year, we have correctly managed the 2.04 tons of waste that our operation generated, through correct waste management, recycling, and alliances with responsible companies.

These measures allowed us to **avoid** the use of:

training

We are committed to the care and wellbeing of our clients, guests and community. Last May, our collaborators were trained in new strategies to detect and prevent exploitation and human trafficking.
