

HIDDEN RETREAT

The Saujana Hotel receives a breath of new life and reinforces its position as the top ideal destination for work and play

A LONG-STANDING ESTABLISHMENT synonymous with luxury and comfort, The Saujana has finally revealed a refreshing brand new look to cater to discerning travellers. The hotel is strategically located just 35 minutes away from the city centre and nestled amidst 160 hectares of lush tropical forest and manicured gardens, providing the perfect setting for a retreat escape.

All of the hotel's 250 bedrooms have undergone a complete refurbishment, redefining the resort hotel experience that caters to your business or leisure needs. There are a

total of 75 Superior rooms with 175 Deluxe and Executive Deluxe rooms, an increase from the previous 210 rooms. The rooms have been tastefully furnished with a nature inspired palette of earthy colours made from natural materials to create a contemporary look. Batik inspired bed runners and additional multi-media hub with multiple adapter capability are available to allow guests to remain connected and work at ease in the comfort of their own rooms. The Deluxe rooms embody the same contemporary look with an impressive headboard feature wall panel with embedded fossil-like design. For extra comfort, a more spacious bathroom with separate rain shower cubicle has been installed. Experience the ultra luxe bath tub inside the Executive Deluxe and allow yourself to be spoiled,

The rooms overlook a serene landscape view from the manicured gardens, courtyard, lake and poolside, providing the perfect complement to the idyllic surrounding and interior. To cater to your digital needs, all rooms are equipped with state-of-the-art technology for entertainment such as the 50-inch flat-screen televisions, iPod docking station and wireless Internet access. The renovation has also placed an emphasis on convenience as the rooms are equipped with a mini-refrigerator, personalised Nespresso coffee maker and LED reading lights. Wi-Fi is now

available throughout the entire resort complimentary for all guests.

Charcoal, a Malaysian grill dining concept which opened its doors last June is also the latest addition to the hotel's variety of F&B outlets. The restaurant focuses on prime meats and quality seafood grilled to perfection on three charcoal grills with an open kitchen concept. The Saujana's other signature restaurants such as Senja and

Kogetsu have also been upgraded to spoil guests with the option of Italian or Japanese cuisine.

As a resort that caters to both leisure and business, an additional six meeting rooms have been built specially for group and convention needs. A few of the impressive features installed in the rooms are state-of-the-art audio visual equipment, built-in charging stations, 70 inch flat screen tvs and a built in feature wall which allows the use of screens, tvs and whiteboard simultaneously to optimise on presentations. There is also a personalised minibar

and induction system which allows breaks to be served in either the meeting rooms or outdoors overlooking the courtyard.

This refurbishment programme has further cemented The Saujana Hotel's position as the best place to stay, meet, dine and entertain in the Klang Valley.
