Spritz: a história

Spritz: the story

Veneza, Itália... - O Spritz teve origem durante a unificação italiana. Os locais costumavam tomar o seu spritz com um bitter que nasceu na própria Veneza há exatos 100 anos...

Historicamente, a fronteira entre Áustria e Itália faz parte da grande linha que divide a Europa Ocidental entre sul e norte, latinos e germânicos e, muito mais importante, vinho e cerveja...

Bebedores de cerveja, os austríacos que viviam no Vêneto não estavam habituados ao maior volume de álcool do vinho, então eles adicionavam água. Soldados, diplomatas e outros representantes dos Habsburgo introduziram a prática de adicionar um pouco de água gaseificada nos copos. Ou, como diziam, spritzen...

A fórmula dos austríacos foi introduzida a água com gás e o bitter local...

E assim nasce o “Spritz Veneziano”.

Venice, Italy... - The Spritz originated during the Italian unification. Locals used to drink their spritz with a bitter that was born in Venice itself exactly 100 years ago...

Historically, the border between Austria and Italy is part of the great line that divides Western Europe between south and north, Latins and Germans and, much more importantly, wine and beer..

Beer drinkers, the Austrians living in Veneto were not used to the higher alcohol content of wine, so they added water. Soldiers, diplomats and other Habsburg representatives introduced the practice of adding a little sparkling water to their glasses. Or, as they said, spritzen...

To the Austrians formula, they added sparkling water and local bitters...

Thus, the “Venetian spritz” was born.
