

ENVIRONMENTAL POLICY

Time Out Hotel based in St. Lawrence Gap, Dover, Christ Church, Barbados has made a firm commitment to meet the highest international standards in regards to the environment, conservation and corporate responsibility. The hotel's daily operation is geared towards ecological preservation of the surrounding environment.

Our Goals:

1. To reduce our carbon emissions, water use and waste production by 5% before the end of December 2027 through implementing the following steps:
   - Regularly recording and monitoring the amount of energy and water we use, as well as the waste we produce
   - Installing low energy lighting throughout our property
   - Installing flow restrictors on all taps
   - Putting information in guest rooms about how to conserve energy, water and how to recycle their waste
   - Sourcing more sustainable products
   - Installing Solar Power Panels to generate Electricity
2. To minimise all forms of pollution from our business operations by implementing the following steps:
   - Wherever possible, continuously reviewing and replacing the cleaning chemicals we use with eco-friendly alternatives
   - Adding recycling garbage bins in the rooms by December 2027.
3. To have a positive impact on local community in our area by taking the following steps:
   - Continuing to support the Variety Club and the Aunty Olga Memorial School Aid Programme
   - Participating in annual fundraising activities for a local project
4. Time Out Hotel is committed to protecting and supporting local biodiversity. We will maintain our gardens responsibly by selecting native and climate-appropriate plants, conserving water, limiting the use of harmful pesticides and chemicals, and protecting local wildlife and natural habitats. We will also encourage our employees, guests and suppliers to respect Barbados' natural environment and avoid activities that may harm local plants, animals or ecosystems.

We regularly train all our employees and educate our clients, suppliers and partners to encourage them to help support our environmental management system and contribute to our progress.

Alicia Farmer
General Manager
