THALION
CRÉATEUR DE COSMÉTIQUE MARINE

LIKE SEAWEED IN THE WAVES

As it dances, seaweed draws all the balancing properties out of the depth of the ocean.

The similarity between the compositions of seawater and the fluid that makes up the human body gives our products exceptional tolerability and bio-affinity.

Carefully selected, measured, and blended, our high-quality marine active ingredients are incorporated into natural textures with sensory appeal to enhance skin in a healthy and ecologically responsible manner.

THE ART OF SKINCARE

Our rituals are inspired by the movements of the sea, like true marine choreography. Sculptor of unique galenic formulas, THALION imagines unique gestures to enhance beauty. Sensory expertise and voluptuous textures merge to offer intense relaxation.

COMMITTED TO THE SEA: THE TRUE LIFE SOURCE

Using the precious plants we harvest and research to identify marine compounds, we develop our own patented active ingredients derived from the sea. Our Laboratories are at the heart of the Iroise Sea, Brittany, France. Deemed a UNESCO World Biosphere Reserve, it contains the very best seaweeds and harvesting areas, as its waters are exceptionally pure with impressive marine biodiversity. At THALION, we are Harvesters, Producers, and Distributors simultaneously. Our integrated model is the only one of its kind in the marine cosmetics industry.

CREATOR OF POWERFUL & INNOVATIVE TREATMENTS

THALION products channel research findings into natural, safe and innovative marine formulas that preserve and unveil the beauty of the skin. Reflecting knowledge of the sea, combined with expert sensory galenic forms and precise manual techniques, THALION treatments unite performance, originality and relaxation for complete client satisfaction.
