

Tranquility and Sleep Enhancing

Relaxation and quality of sleep are vital aspects of enjoying life to the fullest. A lack of restorative rest, both mental and physical, is linked to premature ageing and risk of ill health.

This gentle programme uses evidence-based techniques proven to improve your sleep. Our expert team will equip you with routines and tips to ensure that you will understand how to improve your sleep quality, starting with the day you arrive, and how to sustain it once you have returned home.
