

YOU TOO CAN MAKE A DIFFERENCE JOIN US WEDNESDAY.

We are collaborating with both the Fiji Ministry of Forestry and Ministry of Fisheries to protect our natural resources for today, and future generations. Our primary initiatives are planting 5,000 Mangrove saplings, build and nurture a coral farm and a giant clam nursery. Join us for an hour or two to learn about these projects and participate in preparing, planting and maintaining our various initiatives.

Sometimes in the sea, other times in the boat building shed repairing or making platforms for corals to grow.

Stock photos.

JOIN IN OR JUST COME AND WATCH.

CHECK WITH RECEPTION ON TUESDAY FOR TIMES & WHICH ACTIVITY.

HATS AND SUNSCREEN REQUIRED OFR PLANTING, WATER SUPPLIED.

We are proudly Fijian and confident that every small step we make, helps toward reducing our footprint on our ever so fragile planet.
