Statement on Sustainability

As part of our commitments in building a sustainable business for our employees, guests, communities, and business partners, we have embarked into our sustainable and environmental journey since 2015 when we joined "Green Globe" and become certified (Good Member in Green Globe).

With our shared values, we have made great strides to tackle climate crisis and reduce CO2 emissions, we have renewed our commitments with new target reduction for carbon emissions, energy, water and recently introducing water filtration and bottling system to eliminate plastic usage.

While I am proud of how far we have come in meeting our targets there is still more work to do for us to achieve Dubai Sustainability Goals, by continuing to work together and keeping sustainability at our future, we will do our part to ensure a greater tomorrow for our guests and colleagues.

Regards,

Freddy Farid

بيان حول الاستدامة

كجزء من التزاماتنا في بناء أعمال مستدامة لموظفينا وضيوفنا ومجتمعاتنا وشركائنا التجاريين ، شرعنا في رحلتنا المستدامة والبيئية منذ عام 2015 عندما انضمنا إلى "جرين جلوب" وأصبحنا معتمدين (كعضو جيد في جرين جلوب)، من خلال قيمنا المشتركة ، قطعنا خطوات كبيرة لمعالجة أزمة المناخ وتقليل انبعاثات ثاني أكسيد الكربون ، وددنا التزاماتنا مع هدف جديد لخفض انبعاثات الكربون والطاقة والمياه. وإدخال نظام تنقية المياه وتعبئتها مؤخراً لإنهاء استخدام البلاستيك. بينما أنا فخور بالمدى الذي قطعناه في تحقيق أهدافنا ، لا يزال هناك المزيد من العمل الذي يتعين علينا القيام به لتحقيق أهداف دبي للاستدامة ، من خلال الاستمرار في العمل معاً والحفاظ على الاستدامة في مستقبلنا، سنقوم بدورنا لضمان غد أفضل لضيوفنا وزملائنا.

I. MISSION & VISION

Two Seasons Hotel Management LLC, a Hospitality Management Company's vision is to educate and promote the importance of green living in hospitality amongst children, the next generation of travelers.

Our mission is to move towards sustainability where all concerns are integrated into a business strategy which leads to the company being more resilient and proactive to future challenges and opportunities.

II. INTRODUCTION

Since its inception in 2010, Two Seasons Hotel Management LLC has been incorporating sustainable tourism principles and practices into its operation. We continuously strive to refine our level of understanding of sustainability and periodically take time to review our sustainable practices in order to expand and implement improvements wherever possible.

Sustainability within Two Seasons Hotel & Apartments is defined as “carrying out its business in line with our company’s guiding principles of team work, recognition, integrity, people focus, innovation, and continuous growth”. Our Sustainable Management Plan ensures long term profitability for the hotel, which will benefit its colleagues, customers, business partners, owners, other stakeholders and the environment at large.

In 2015, we took up the challenge to obtain the Green Globe certification. It is our aim to continually improve our sustainability efforts, and to achieve a two percent (2%) of overall annual improvement in connection with our yearly review. Green Globe is the premier global certification for sustainable travel and tourism. The Green Globe Certification offers the world’s most recognized and longest running program allowing us to be one of the green leaders in the travel and tourism industry. With this certification, we are able to confidently promote our environmental credentials along with our commitment to the people.

III. PURPOSE

The primary purpose of the Sustainability Management Plan is to guide decision-making and management of the daily business operations in a sustainable manner.

- To develop the business in a sustainable manner considering the environmental, socio-cultural, quality, health & safety issues
- To demonstrate management commitment to comply with the environmental laws and regulations of the United Arab Emirates
- To develop a monitoring and audit program to ensure compliance to the Sustainability Management Plan and relevant environmental legislation and the early detection of any significant environmental impacts from the activities of the business
- To outline mitigation measures in order to minimize the impact of the business activities on the surrounding environment.
- To present mitigation strategies and actions for the control of pollution, waste reduction and resource conservation by effectively practicing Reduce, Reuse and Recycle wherever possible.
- To establish a framework for environmental management to ensure the implementation of the identified mitigation measures.
- It is not intended to be exhaustive, but is considered the minimum standard acceptable to Two Seasons

II. Socio-cultural – Be involved in corporate social responsibility actions, community development, fair trade, support local entrepreneurs, respect local communities, implement a policy against commercial exploitation, equitable hiring, employee protection and last but not least, that our business do not jeopardize the provision of basic services, such as water, energy, or sanitation to neighboring communities.

III. Quality – It involves any activity that can sustain itself economically through creating competitive advantages within the industry with inspired service that not only meets, but exceeds guest expectations. It continues to contribute to the economic well-being of the surrounding community through local ownership, buying local products, etc. A sustainable business should benefit its colleagues, customers, business partners, owners, and other stakeholders. The guest satisfaction levels are measured through the online review scores and through the mystery shopper audits.

IV. Health & Safety – Two Seasons Hotel & Apartments complies with all established health and safety regulations, and ensures that guest, staff and all the stakeholders are well protected. Usage of safety instruments and machinery are ensured with the respective PPE required for the tasks. The training on health and safety are given to all staff and contractors. Two Seasons Hotel & Apartments made all the initiatives to create a safe and healthy working environment for all the members.

A. SUSTAINABLE MANAGEMENT

A1. IMPLEMENT A SUSTAINABLE MANAGEMENT PLAN

Two Seasons Hotel & Apartments shall establish and maintain the SMP complying with requirements included in this section. There are a number of elements that make up the SMP.

Two Seasons Hotel & Apartments shall formulate policies and procedures based on the following:

- a) Appropriate to the nature and scale of the organization's activities
- b) Aligned with the four key SMP areas i.e. environmental, socio-cultural, quality and health & safety issues
- c) Includes a commitment to continual improvement of the SMP
- d) Includes a commitment to comply as a minimum with the current applicable legislations, regulations and other requirement to which the organization subscribes
- e) Provide a framework for setting and reviewing SMP objectives and targets
- f) Documented, implemented, maintained and communicated to all employees
- g) Available to all interested and associate's parties and
- h) SMP is reviewed periodically to remain relevant and appropriate to the organization

A2. LEGAL COMPLIANCE:

Two Seasons Hotel & Apartments is licensed according to the UAE law and in compliance with all relevant international or local legislations and regulations, including health, safety, labor, environmental aspects, and insurance policies and other guest and colleague protection instruments are up to date and in order.

A. SUSTAINABLE MANAGEMENT

A3. EMPLOYEE TRAINING

Two Seasons Hotel & Apartments is in line with the HR competencies and competency models in terms of employee hiring, training, annual appraisal and performance review.

Competencies and competency models are designed to define the skills, knowledge and attributes that make organizations and individuals successful. Once competencies are identified, people with these competencies can be recruited and where necessary trained and developed. This builds an organization of successful colleagues who are capable of delivering business goals and execute strategies.

While competencies may enable people to achieve success, they alone do not ensure success. We see people who are competent but do not deliver business results or vice versa. In other words, only assessing people against competencies is not enough. We must also measure their achievements against the desired business goals within their roles.

At the same time, competencies provide the link between organizational vision, behaviors, outputs and results and are the foundation for recruitment, selection, performance management, development and succession planning.

Training on sustainability management, health and safety and environmental impact are done on periodic basis. The goals and management plans are communicated to the employees in the orientation and allocated specific training on sustainability management.

Table 2. Hotel Training on Health & Safety and Cross Training numbers of hours spent and percentage

Health & Safety Training	Total 439 training hours from January to December 2024
Employees Cross Training	8% colleagues have undergone cross training from January to December 2024

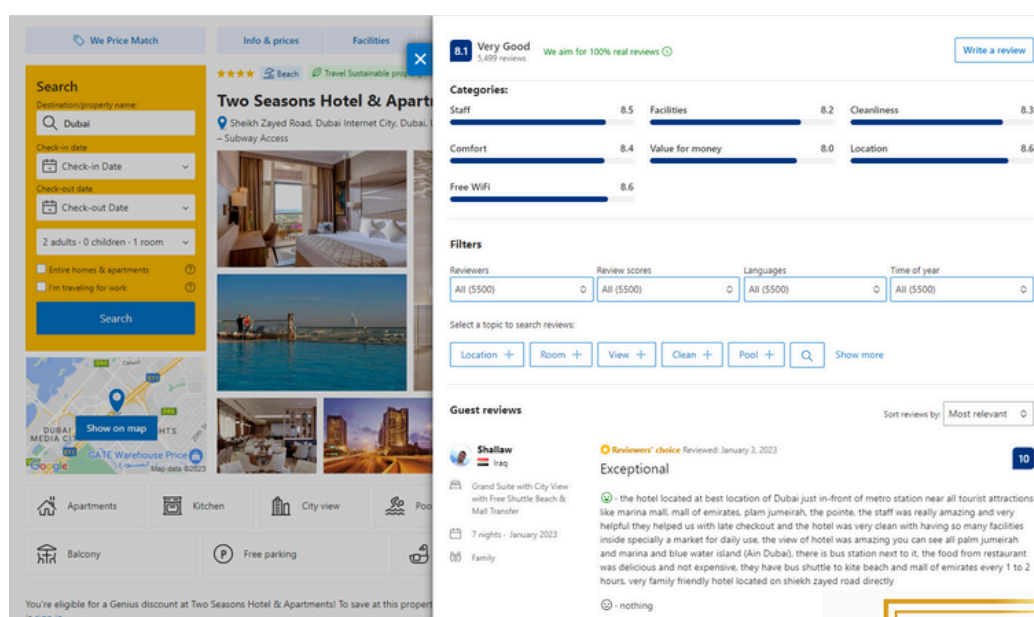

A. SUSTAINABLE MANAGEMENT

A.4 CUSTOMER SATISFACTION

Customer satisfaction is supported by the Sales & Marketing Department to operate in a way that focuses on continuous improvement and long-term sustainability. It works with all the departments and areas of business to ensure that our guests are always the first priority by having a system in place that allow us to measure how well we are doing, and to respond quickly when we are not getting the desired results.

Aside from customer satisfaction, we also review and monitor internal quality performance. Some of the tools used for monitoring and reviewing the same are:

IFH mystery shopper audits, Quality and Environmental Management System (QEMS), TrustYou survey feedback, F&B guest comment cards, financial audit on cashiering practices, reservations mystery audits and other 3rd party online platforms such as TripAdvisor, Booking.com, Expedia and all social media channels.

A. SUSTAINABLE MANAGEMENT

A.6 LOCAL ZONING, DESIGN AND CONSTRUCTION

Ongoing maintenance and repairs are performed regularly in the hotel. The refurbishments if any, include re-using as much of the original structure as possible. Renovations are always performed with the purpose of being as sustainable, energy-saving and long-lasting as possible. It includes the use of environment-friendly materials. Every effort is been made to ensure that all appliances that have been purchased for operating the hotel are energy efficient. The water savers have been installed in all the areas as part of the sustainability plan to reduce water consumption. The LED lights and motion sensors are replaced where applicable to reduce the energy consumption. Eco-friendly design and materials are reviewed based on sustainability management plan.

A.7 EXPERIENTIAL OR INTERPRETATION TOURISM

We inform our guests about the local environment, local culture and cultural heritage through various means; through electronic signage or something as simple as tent cards. As UAE is predominantly a Muslim country, guests are educated with the local culture, and traditional places of interest. The strength of the local community is shown to the guests during the holy month of Ramadan. We decorate our lobby area and dining outlets with Ramadan themed decors to highlight the Islamic culture celebration.

Our front office team was sent to experience authentic Emirati cultural tour in collaboration with our partner, Heritage Express

Various expedition packages are available with local tour organizers to visit places of historical interests, museums, heritage village, or to embrace a moment of serenity within the vast desert. Two Seasons Hotel & Apartments work closely with the local market, and as such it is beneficial to the company and the local community.

Two Seasons Hotel & Apartments endeavors to deliver imaginative and exhilarating experience in culturally connected environments offering thoughtful and generous service. The Concierge team is trained in 'Experiential Tourism' and 'Dubai Way' programs.

A. SUSTAINABLE MANAGEMENT

A.8 COMMUNICATIONS STRATEGY

We communicate with our guests and visitors in a comprehensive manner, both online and offline. Our implementation plan and strategy for a sustainable operation are clearly defined, as well as our involvement with the local community and other charity work. Our sustainable operations involve our guests, example; we have placed water a tent card to educate guests on saving water and energy by opting to reuse linens and towels. This provides them an opportunity to contribute to water and energy conservation. We are encouraging the guest to grow plants by giving free tree saplings. Two Seasons is also a member of Emirates Environmental Group which is a local organization that facilitates environment protection, sustainable management and social responsibility. There are various community activities we participate in such as Earth Hour, World Environment Day, Tree planting, Can Collection and Toner and Cartilages collections. Apart from these, we also participated in Beat Diabetes Walk and conducted waste management training for our staff with our environmental service partner, Averda.

A. SUSTAINABLE MANAGEMENT

A.9 HEALTH AND SAFETY

We follow strict environmental, health and safety laws, regulations and procedures to conserve and protect the environment and create a safe workplace where we bring the best out of our colleagues whilst avoiding the risk of injury and accidents.

Colleagues are appropriately trained on the health and safety issues while working and guests are informed of hazards by using appropriate signage and other form of communication. Purchase and operating policy for all mechanisms including equipment and facilities is regulated to be as environmentally friendly as possible with low emission and minimal energy consumption. We have an experienced team of engineers and technicians who maintain the facilities and equipment to ensure they are in good working condition. All necessary and mandatory safety requirements for the same are in order, such as method statement, risk assessment, and personal protective equipment.

Local law enforcement agencies frequently visit the premises to ensure all emergency systems are in order. Besides, there are audits conducted to ensure that the hotel clinic is up to the standards. HACCP audits are conducted to ensure compliance to the Food Safety Management System. New kitchen staff is trained on safety and procedures, and must undergo a mandatory basic food hygiene course in food handling.

Highlights:

- Guests are informed verbally and by posted signs to take care of wet floor
- Swimming pool depth is clearly marked, a trained life guard in rescue and basic first aid is physically present at the pool
- If any events are to be held within the property by external organizers, a clear method statement, risk assessment, floor plans, insurance policies, are requested from the organizers, such that a clear gap analysis is conducted, and appropriate preventative measures from our end are also taken

Chemical safety and drills:

Emergency Response team supervising the chemical spill safety drill

March 15, 2023

An internal chemical spill drill training at the laundry department's chemical storage room was conducted to assess the readiness of the staff in case of emergency.

This operation under health and safety training involves the Emergency Response Team (ERT), conducting chemical spill clean up and disposal as per the standards.

Highlights:

- All paint is environment-friendly and lead-free
- All external contractors need to provide safety permit and equipment for their staff
- Use of auto-dosing system has been introduced for housekeeping chemicals
- Fire Safety systems are in place.
- Regular Mock drills & emergency evacuations are conducted.
- Activation of Seismic and Weather System; Two Seasons Hotel & Apartments is notified of Earthquake and Weather real time natural disasters; So, we can react properly during these emergencies. DOE & Chief Security Mobile nos. are activated and trained by DM

A.9 HEALTH AND SAFETY

REPORTING EMERGENCIES

The safety of our team members and our guests is one of the main concerns of Two Seasons Hotel & Apartments. Safety cannot be taught or explained enough, and the awareness of team members is therefore encouraged.

ACCIDENTS TO TEAM MEMBERS

If a team member is injured, he/she should report immediately to his/her Head of Department or Supervisor no matter how trivial. A qualified first aid representative on duty applies proper treatment if necessary. Hotel Nurse, Duty Manager and the Human Resources representative should also be informed. An accident report form has to be completed by the Hotel Nurse and copied to all relevant Head of Department and associated members.

ACCIDENTS TO GUESTS

Any accident to a guest, no matter how small, must be reported immediately to the Hotel Nurse, Head of Department, Supervisor and Duty Manager. The guests should never be left unattended and team members should wait for assistance. An accident report form has to be completed by the Hotel Nurse and Security Manager and sent to all respective departments.

FIRST AID

Two Seasons Hotel & Apartments has first aid boxes located at various locations on property. All serious injuries or illness will be referred to the doctor, clinic or hospital.

We have an emergency plan. We are prepared to deal with Sudden Cardiac Arrest (SCA), we have placed two (2) Automated External Defibrillator (AED) machines in the hotel readily available. We have trained the First Aiders on usage as we put value on the life of our staff and guests.

A.10 DISASTER MANAGEMENT & EMERGENCY RESPONSE

Two Seasons Hotel & Apartments follows the Disaster and Emergency plan as recommended by the UAE government. The mock drills and emergency response team are well trained to handle situations. The safety equipment and the alarms are tested on periodic basis for functionality and efficiency. The review and assessment on mock drills are done on a periodic basis.

- Activation of Seismic and Weather System; Two Seasons Hotel & Apartments is notified of earthquake and weather real-time natural disasters so we can react properly during these emergencies. DOE & Chief Security Mobile numbers are activated and trained by Dubai Municipality.
- As part of our disaster management plan, we have trained our staffs on sand storm, flood, earthquake and tsunami.

Likelihood	Severity of the Impact		
	Low	Moderate	High
1. Likely	Insignificant Impact	Medium Significant Impact	Significant Impact
2. Unlikely	Insignificant Impact	Insignificant Impact	Medium Significant Impact

Criteria	Definition	Scoring
Likelihood of Impact	The assessment criteria should account for the relative volume together with the frequency of any release. Continuous emissions score are highest in this category.	0 - Negligible probability of occurrence 1 - Low probability of occurrence 2 - Medium probability of occurrence 3 - High probability of occurrence or continuous emissions
Severity of Impact	Each aspect needs to be assessed for the actual or potential degree of harm being caused to the environment from any hazardous release.	0 - No environmental impact exists 1 - Minimal impact, e.g. small spillage of oil resulting in no permanent or long term harm 2 - Medium impact, e.g. localized and short term harm 3 - Major impact, e.g. uncontrolled emissions or discharges of highly toxic chemicals causing long term harm to loss of life

B. SOCIAL / ECONOMIC

B.1 COMMUNITY DEVELOPMENT

Two Seasons Hotel & Apartments commits to using the revenues generated from the recycling initiatives to sponsor and assist in our support and assistance in the local community, whereby this money will be managed by a CSR Committee.

Every month the hotel generates funds from recycling of waste items. 90% of this money can be given back to the community to help groups / individuals struggling each month. Thus, the money will be placed in a corporate responsibility fund to help an individual or specific charity.

THE ORGANIZATION OR COMMUNITY WE WILL ASSIST ARE

1. Charity events, fun runs and international events that we participate in and need our help
2. Education on the Land and Human Rights
3. Activities for Autism awareness
4. Activities with Emirates Nature - WWF Leaders of Change Initiative

HOW TO MANAGE THE COMMUNITY INVOLVEMENT

1. A group will be setup called the Sustainability Committee.
2. The committee members for this group will be the Hotel Managers, Directors of Sales, Human Resources Manager & Chief Accountant and one staff member per department of the Hotel.
3. The funds will be controlled by the Chief Accountant. He will be the finance advisor for the corporate responsibility fund.
4. Each month we will hold a meeting where by the Chief Accountant will advise of the money obtained in the previous month from recycling.
5. Each member in the committee will submit a request and proposal from their side on what they think we should do with the funds.
6. Each charity per month will be submitted to Head Office for approval and acknowledgement.
7. The donation will be made in the form of a cheque and a photo and presentation will be completed each month of this event.
8. If we feel the need to sponsor two or more projects in one month we can do this as long as there is money in the funds. The funds cannot go into credit at any time.
9. We do not need to sponsor a committee project every month, if there is nothing beneficial to offer or we don't have enough money in the account then we will not partake in a project for that month.
10. All charities per month will be noted on our corporate responsibility board in the heart of house area.
11. All monthly activities and information will be passed to Sales and Marketing department for PR purposes and CSR.

B. SOCIAL / ECONOMIC

B.1 COMMUNITY DEVELOPMENT

RECYCLING REVENUE SOURCES

1. All items from F&B such as cans, bottles, cardboard and plastics.
2. All items from Receiving such as cans, bottles, cardboards and plastics.
3. All items from Housekeeping from the waste of the rooms for cans, bottles, cardboards and plastics.
4. All items from Engineering needs to be reviewed by the accounts department first when it comes to light globes, batteries, old materials. As these are assets of the hotel. The money from this should go back to the hotel. All can be reviewed individually and have approved from head office for each case.
5. Only paper that has been used on both sides can be recycled.

IMPORTANCE OF COMMUNITY INVOLVEMENT

1. Promote the importance of recycling within the hotel and ensure that the staff know the benefits of sorting and recycling and how it will impact someone else's life in a positive way.
2. To ensure that Two Seasons Hotel & Apartments has a corporate responsibility measure that is manageable.
3. Every person can make a difference to the environment and the community
4. Every 3 months all lost property are submitted to the police by the Security as per the Dubai government.
5. Average of 50 hours per month need to be spend on training, assisting and supporting the local community

B. SOCIAL / ECONOMIC

B.1 COMMUNITY DEVELOPMENT

Two Seasons Hotel & Apartments recognizes its roles and responsibilities in contributing to the sustainable development of the community where it operates. The hotel aims to maximize the return on community investments and their impact on the local community.

Through our community investment program, we have identified unique areas of involvement where we can actively support our local communities and engage in a mutually rewarding way with our stakeholders.

- Healthcare: Supporting initiatives aimed at enhancing the health and well-being of local communities.
- Education: Supporting initiatives focused on vocational training and skills development that improve employability in the tourism and hospitality sector.
- Cultural Preservation: Supporting initiatives aimed at preserving local culture, heritage and promoting cultural diversity.
- Economic Development: Supporting initiatives aimed at enhancing the ability of small and medium enterprises (SMEs) that are strategically linked to business needs to perform more effectively and create economic growth.
- Environmental Protection: Supporting initiatives that help protect the integrity of the environment. We also want to support initiatives that use innovative products and services to help solve environmental problems.

B.2 LOCAL EMPLOYMENT

Two Seasons Hotel & Apartments supports local employment to support the local community. As part of its initiatives, recruitment in specific job advertisements for UAE nationals is also in place. As per the hotel's annual road show calendar, Two Seasons Hotel & Apartments has planned to participate in all relevant local career road shows and events. As part of the sustainability plan, we have approached several Hotel management colleges to support recruitment of locals as employees and interns.

- Equal employment opportunity policy
- Code of Conduct policy
- Recruit and select colleagues policy
- UAE Federal Law no. 8 for 1980

B.3 FAIR TRADE

Two Seasons Hotel & Apartments ensures the use of right methods to select suppliers and procure goods and services with the right quality, price, time, source and delivery while protecting the company. The main focus is on the suppliers with eco-friendly products and promote green purchase. Purchasing is done only through local suppliers and preference given on the basis of the needs and requirements of the hotel.

Two Seasons Hotel & Apartments is using Starbucks products which are fair trade certified. In addition, our Purchasing department is analyzing other suppliers to make use of fair trade products.

B.4 LOCAL ENTREPRENEURS

Two Seasons Hotel & Apartments is established as a family hotel and our aim is to let families and clients experience our hospitality in the midst of their warm family environment. Two Seasons Hotel & Apartments do not engage with local entrepreneurs dealing with historical artifacts as it is not permitted by law.

It is worthwhile to state that, at Two Seasons Hotel & Apartments we do engage in organizing events and activities that portray the local culture, especially during Ramadan, Eid and UAE National Day.

B.6 ANTI-EXPLOITATION

Two Seasons Hotel & Apartments strictly complies with the UAE Federal Law no. 8 for 1980 section 2 on the Regulation of Child Labor. As per the hotel's child exploitation policy, the hotel does not encourage any type of exploitation with regards to labor, sexual abuse or harassment and child trafficking within the hotel premises as a part of the Sustainability Management Plan. Appropriate policies are in place against the employment of children, sexual harassment, and exploitation. Two Seasons Hotel & Apartments has included child exploitation awareness as part of the internal trainings conveyed to all employees through customized training material and videos.

B. SOCIAL / ECONOMIC

B.6 ANTI-EXPLOITATION POLICY

Department: Human Resources Policy: Anti Exploitation HR - 31

Policy Number: HR 31
Effective Date: January 2019

Objectives:
The purpose of this policy is to safeguard children and adolescents from sexual abuse and violence at Two Seasons Hotel and Apartments.

Statement of Policy:

C. CULTURAL HERITAGE

C1. CODE OF BEHAVIOR

C2. HISTORICAL ARTIFACTS

C3. PROTECTION OF SITES

C4. INCORPORATION OF CULTURE

The company policy code of conduct includes established guidelines on the code of behavior concerning the protection of local cultures. The guests are provided with relevant information of local culture, customs and tourism of UAE.

The staffs at Two Seasons Hotel & Apartments is trained to guide guests towards the cultural sights and events, entertainment, restaurants that the guests are most interested in. Local UAE culture and idiosyncrasies can be explained and discussed with guests, but mainly the culture is significantly different from anywhere else in the western/developed part of the world, from where we have a substantial number of guests coming from. Guests can read through the basic do's and don'ts in their complimentary tourist guide 'Discover Dubai'.

Historical and archeological artifacts are not sold, traded, or displayed. Business complies with laws, standards and regulations concerning the protection of historical sites and cultural heritage.

Two Seasons Hotel & Apartments places great emphasis on being a part of the local environment with regards to cultural and social activities, as well as incorporating use of local food and competencies from local businesses. We take great pride and spend a lot of time and energy explaining our collaboration with local suppliers and businesses to interested parties. Representatives from Two Seasons Hotel & Apartments visited "Emirates College of Hospitality Academy" to meet with Emirati students to offer them an internship and job opportunities. Such Opportunities are also advertised on caterer global and other recruitment portals to attract Emirate nationals to join Two Seasons Hotel & Apartments.

Two Seasons Hotel & Apartments represents the local cultural and heritage by offering dates and Arabic coffee to all guests arriving at the hotel.

D. CONSERVATION OF HOTEL RESOURCES AND PROTECTION OF BIODIVERSITY

In line with Two Seasons Sustainability Development plan, the use of Environmentally Preferable Purchasing (EPP) helps Two Seasons "buy green," and in doing so, uses the buying power to stimulate market demand for green products and services. However, this statement should not be the key deciding factor in making a commercial buying decision. Two Seasons Hotel & Apartments offers green meeting package as well, as a part of our sustainability initiative.

Highlights:

Black and grey waste water is managed by the city in a non-polluting way and does not affect public health. This is mandated by the UAE law. A strong preference is given to fair trade and eco-certified suppliers – we will often choose not to have a service, rather than compromising our integrity.

We minimize our output of printed matter and prefer to communicate through our website (which is carbon neutral). Our suppliers often bring their products in crates and cases, which are reused and taken back. Every attempt is made to increase the awareness of the suppliers to avoid using crates and cases where possible.

Refrigerator and freezer temperatures are measured and monitored on a regular basis by the culinary staff. Energy usage is specified and recorded. Motion sensors are established in some of the areas, feasibility to cover more area is considered. All rooms need use the green key card in order to turn on lights – whereby all electric appliances are turned off when guest is not in room. Energy efficient LED lights are installed throughout the property, and outdoor lighting is controlled by a timer.

Energy efficient equipment is purchased wherever available, and only used when needed. Old bed linen, duvets and towels that are still usable are donated to charity. There are no disposable cutlery or other eating utensils used in the hotel.

D. CONSERVATION OF HOTEL RESOURCES AND PROTECTION OF BIODIVERSITY

Active systems are in place to detect and repair leaking toilets, faucets and showerheads in guest rooms with constant coordination between the housekeeping and engineering department. There is also a system in place to detect and repair all machinery and equipment on a regular monthly basis, and is run by the engineering department.

Native plants or low water plants are used in landscaping to minimize water consumption in the outdoor garden. Two Seasons Hotel & Apartments waste recycling has been improved as we encourage our guests to help us with our recycling programs. We strive to produce as little waste as possible, and nothing is thrown out that can be used again.

WASTE MANAGEMENT AT TWO SEASONS HOTEL & APARTMENTS

As far as reasonably practical, waste management and waste reduction will be practiced following the waste hierarchy approach:

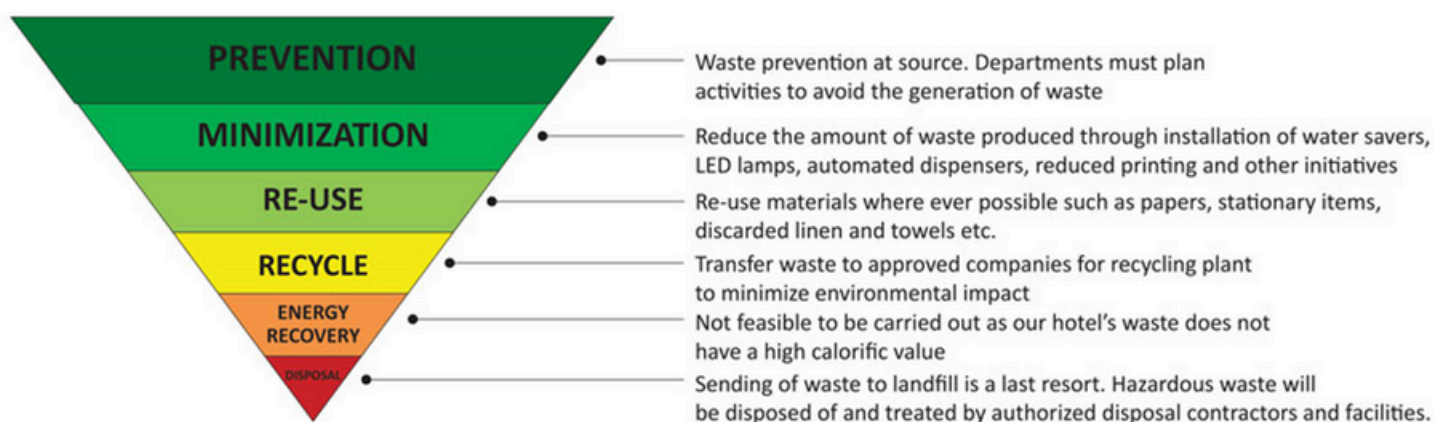

Figure 3: Waste Hierarchy Approach

Ramadan 2025: No to Food Waste Campaign by the UAE Food Bank

Our hotel has contributed to the “No to Food Waste” under the 1 Million Surplus Meals Initiative during Ramadan 2025, organized by the UAE Food Bank. As a result, we have diverted 3,766 kg of food waste from landfill equivalent to 9,415 non-consumable meals. This contribution has reduced 4,783 kg of CO₂ emissions, created 753 kg of compost, supported 3,276 square ft. of farming land and saved 113 cubic feet of landfill space.

Waste Segregation

Waste streaming is a highly effective way of reducing waste. The segregation of waste plays a role in reducing, reusing and recycling the waste.

- All kitchens, restaurant, café and banquet areas are provided with color coded bin for proper segregation of waste in the specified areas
- Guest rooms waste bins: The guest rooms are placed with two bins one in the bed room and the other one in the bathroom in order to segregate the waste
- Housekeeping staff: In the floor level, the segregation of the waste are done for general waste, can and plastic bottles
- Guest room's waste collection: Two separate bags are used to collect general waste and cans and plastic bottles from all the guest rooms to increase the recycled waste and measure for proper segregation
- All recycled and non-recycled waste have to be sorted, collected and stored at separate segregated areas in the garbage room
- All hazardous wastes like battery and bulbs have been separated and stored in designated areas and monitored by engineering and IT department. The waste is disposed through the approved suppliers.
- All new joiners are fully briefed about the benefits of segregation, procedures for collection waste and the Hotel's environmental policies

Waste Segregation bins for glass, cans, plastic and paper

Two Seasons Hotel & Apartments recycles waste and constantly looks on how to improve. We have specific glass, cans, plastic and paper recycle bins, and encourage guests to help us with our recycling. We attempt to produce as little waste as possible, and nothing is thrown out that can be used again.

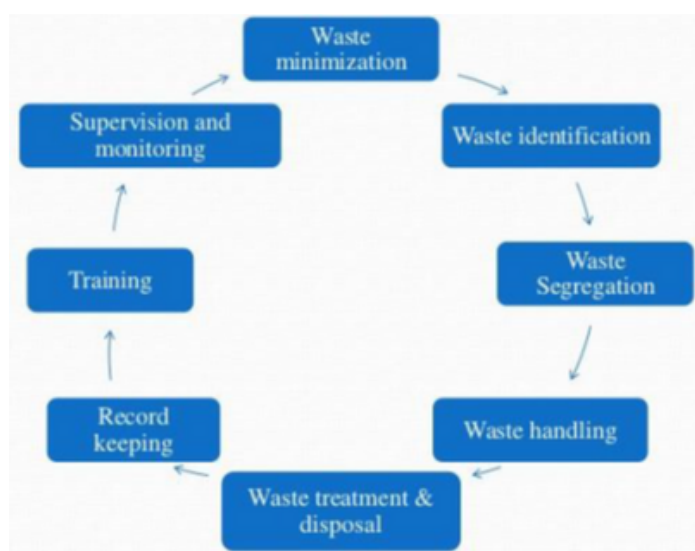

Figure 6: Waste Management Cycle

D. CONSERVATION OF HOTEL RESOURCES AND PROTECTION OF BIODIVERSITY

A food-saving program, Food Watch has been established to reduce food wastage. Since such a program might interfere with the operation of the culinary department, the establishment of the same will be done in consultation with the F & B department. The next initiative would be to have a Compactor machine to compost food waste and use the product as manure for the trees within the property.

- All employee laundry is washed in-house with environment-friendly detergents. All back-office computer and electronic equipment is shut down when work-day is over. Meeting room's lights and equipment are shut down when not in use. All appliances are set at the most efficient level, to save energy, money and appliances. We raise environmental awareness within the guest rooms through the information on the room television, information brochures and tent cards.
- In partnership with EEG, we collect recycled waste to ensure that less waste goes to Dubai landfill site.
- Measure emphasis on sustainability development for continual improvement
- Implement energy saving projects
- Use reusable bags for staff and management laundry clothes

Our concrete aim is to reduce the use of water, electricity and waste in the course of the next year, some of the targets and initiatives to achieve the same are:

- To raise awareness of the environment within the guest rooms by way of environmental information on the room television, room information brochures, and tent cards
- Measure emphasis on sustainability development
- Implement energy saving projects

Water Filtration and Bottling System to Eliminate Plastic Bottles

Water filtration and bottling system was installed at the hotel to eliminate single-use plastic bottles. This initiative will significantly reduce the energy resources required for plastic production, transportation, and disposal. It will reduce the hotel's plastic waste and carbon footprint. The premium filtration system ensures compliance to microbiological safety of drinking water and meets the UAE bottled water standards.

D. CONSERVATION OF HOTEL RESOURCES AND PROTECTION OF BIODIVERSITY

It will enhance guest experience as more guests are looking for hotels with sustainable travel practices. In addition, the guest will be encouraged to support our sustainability initiative to beat plastic pollution. They are given the option to purchase the glass bottle should they wish to take it out.

We are aware that sustainability is an ongoing journey. Therefore, the Sustainability Management Plan will be reviewed annually. Our Sustainability Management Plan is supported by the following policies and procedures along with other supporting documents:

Biodiversity:

As per Two Seasons Hotel & Apartments environment commitment we are not purchasing, using or promoting any products originating from unsustainable practices or serving food from endangered species. Endangered species or items stemming from unsustainable practices are not used or consumed as per company's purchase policy.

Two Seasons Hotel & Apartments prohibits the use of invasive alien species in the landscaping or the available potted plants. Native plants and low water plants are used to minimize water consumption in the indoor and outdoor garden.

Preserving the environment is one of our core values and we will extend our continuous efforts to raise awareness and encouraging not only our employees, but also our guests to be more conscious about environmental sustainability. In order to reduce the typical for the MENA region and the hospitality industry's carbon footprint, we have partnered with environmental organizations to guide us to our goal.

E. ENVIRONMENTAL POLICY

Two Seasons Hotel & Apartments is conscious of global environmental issues and acknowledge our responsibility towards the environment. While the well-being of our guests remains on the forefront, we commit ourselves to carry out operations in a suitable manner, taking every step to minimize operational impact on, and preserve the environment wherever we operate. The aim of this global sustainability approach is to increase awareness regarding the environment and share best practices, ideas and initiatives within the company.

Two Seasons Hotel & Apartments aims to reduce its consumption through the use of basic measures such as energy efficient lighting, water consumption reduction and a better management of waste and chemicals. In delivering this commitment, Two Seasons Hotel & Apartments will endeavor to:

- Meet or exceed applicable environmental legislations, environmental standards and best practices
- Value and preserve the natural and cultural heritage of our hotel, thus enabling our guests to enjoy an authentically local experience
- Promote efficient use of materials and resources across our hotels, especially water and energy
- Work diligently to minimize our waste stream by reusing, recycling and conserving natural resources, particularly through energy and water conservation
- Set sound environmental and social objectives and targets, integrate a process of review and issue progress reports on a periodic basis
- Continually identify opportunities for improvement of our environmental management system
- Promote awareness, train and educate employees on environmental issues and sustainable working practices
- Engage our guests, colleagues, suppliers, contractors and the local community in our initiative to preserve the environment and consider their opinion/feedback when setting out environmental program and procedures
- Conduct environmentally preferable purchasing or green procurement practices
- Eliminate the use of harmful non-biodegradable chemicals
- Participate in efforts for environmental protection at local and national levels

This policy is intended to guide our hotel towards sustainable management. Through this sustainability approach, Two Seasons Hotel & Apartments aims to continue building lasting relationships based on care and reliability with its team, guests, hotel owners, suppliers and communities.

SUSTAINABILITY & GREEN ENVIRONMENT ACHIEVEMENTS 2023 - 2024

Two Seasons Hotel is collaborating with government and non-government organizations since 2016 to fully engage in sustainability and social activities to support the national and international humanitarian initiatives. As part of our commitment to the community, we also work with Dubai Health Authority in the Blood Donation Campaign. The hotel will also donate to Emirates Red Crescent charity projects. We are in discussion with an NGO for autism awareness, an important concern that is well supported by the government of Dubai.

Two Seasons Hotel has been working collaboratively with Emirates Environmental Group (EEG) and has been awarded many times since 2013 until present time. We work together with EEG and Arabian CSR Network for Waste Management and Recycling programs.

Two Seasons Hotel & Apartments Applied for Green Key

This year we will apply for the Green Key Certification, a standard of excellence in environmental responsibility and sustainable operation. This ecolabel certifies our sustainability efforts and commitment, thereby attracting today's travelers in contributing to a positive impact on the environment.
