Grand Park City Hall – Rooftop Pool

Singapore, June 2025 - Grand Park City Hall, a 5-star hotel in Singapore, has been named among the top 1% of hotels worldwide in the 2025 Tripadvisor Travellers' Choice Best of the Best Awards. This marks the second year in a row that Grand Park City Hall has received this accolade—an achievement made possible by the generous feedback from guests and the day-to-day dedication of its hotel team.

Recognising excellence in hospitality based on a full year of Tripadvisor reviews and ratings from a global community of travellers, the Travellers' Choice Best of the Best distinction is awarded to properties that stand out for their commitment to service and warm hospitality. Out of the millions of listings on Tripadvisor, only a select few earn this prestigious status.

Guest reviews consistently highlight the hotel's prime location in Singapore's Civic District, offering seamless access to key attractions such as Fort Canning Park, Marina Bay and the National Gallery Singapore. Many guests appreciate the proximity to City Hall MRT station, enhancing convenience for exploring the city.

The Crystal Club Lounge, reserved for guests staying in selected room categories, remains a guest favourite. Offering complimentary breakfast, afternoon tea canapes, and an evening spread of light dinner and drinks in an exclusive and quiet setting, it has been an experience frequently described as "a highlight" by returning travellers.

Exceptional service remains a cornerstone of Grand Park City Hall's guest experience. Many reviewers note the attentive, warm and thoughtful service provided by the team across all touchpoints. One guest shared, "The staff are all fantastic and very accommodating. From the concierge, front desk and restaurant staff."

Recognition in the Tripadvisor Travellers' Choice Best of the Best, Top Hotels – Singapore & Luxury categories further affirm the hotel's ongoing efforts to offer warm hospitality, thoughtfully designed stays, and a memorable experience for all its guests.
