

Our Commitment

Bougainvillea Barbados is aware of the positive and negative effects our purchasing actions have on our guests, staff, community and the environment of Barbados.

Environmentally friendly purchasing will result in a clean, safe, healthy, productive and aesthetically pleasing environment, creating a positive image in the local and global market. More importantly environmentally friendly purchasing will allow Bougainvillea Barbados to reduce the negative impact on the environment.

Bougainvillea Barbados is committed to sourcing and purchasing products and services, considering appropriate quality and cost effectiveness that meet the following requirements, whenever possible:

- Local, where possible
- Bulk
- Recycled products
- Minimal packaging that is reusable or recyclable
- Biodegradable products and packaging
- Non-toxic
- Energy and water efficient equipment and fittings
- Eco-label
- From environmentally responsible suppliers
- Minimal transportation
