OUR PARTNERS

ISHGA

Experience results-driven skincare derived from the ocean, backed by science. The name ishga is derived from the Gaelic word for water. The pure, clean waters of the Hebridean Islands off the north west coast of Scotland is home to ishga, and where we sustainably hand harvest the seaweed that's at the heart of our skincare.

Hebridean seaweed contains natural antioxidants with properties which transform and protect skin. ishga has developed a bespoke process to extract its natural goodness to deliver visible results.

LAVA SHELLS

Lava Shells are the world's first self-heating massage tool, created to deliver a soothing and indulgent spa experience. These tiger clam shells are powered by a unique, eco-friendly heat technology that provides consistent, long-lasting warmth, allowing therapists to deeply relax muscles, ease tension, and promote circulation.

Unlike traditional hot stones, Lava Shells are ergonomically shaped to contour perfectly to the body, creating a seamless flow that melts away stress. Ideal for anyone seeking both relaxation and therapeutic benefits, a Lava Shell massage combines the healing power of heat with the comfort of nature, leaving you feeling balanced, renewed, and utterly pampered.
