

BRIDGE UPDATE & TEMPORARY ROUTING

Repair work on Bridge #5 is currently underway, and we anticipate completion within the next few weeks, weather permitting.

In the meantime, a temporary routing is in place to ensure continued play.

- Please wait for the group ahead to clear Hole #5 and return to the tee before teeing off.
- After completing Hole #5, please return your cart to the tee box and follow the marked (orange) route back to the bridge.
- From there, cross the bridge and proceed to the 6th tee. Please remain aware of other golfers while following this route.

We apologize for the inconvenience and appreciate your patience as we work through ongoing bridge improvements on the course.

Thank you for your understanding and cooperation as we complete these necessary improvements.
