Beer, Wine & Cocktails

The Emerald Hour's cocktail program is a completely made in-house production based around fresh seasonal ingredients. We make our own bitters, tincture, infusions and syrups and combine them with premium spirits. Please inquire about our current offerings.

We also have a robust beer and wine program offering selections from all of the major wine growing regions with an emphasis on rare and hard to find wines from California. Our beverage director will be happy to find the right wines for your event and budget.

Beverages Charged Based on Consumption
