Please learn below more about our sustainability commitments, goals and progress.
Together we care!

We will enact strategic initiatives aimed at methodically diminishing our carbon footprint across the entirety of our operations, spanning energy consumption, transportation, and waste management. We will allocate resources towards the adoption of energy-efficient technologies and methodologies to enhance energy utilization across our facilities.

In line with our unwavering commitment to environmental sustainability, we are proud to announce our formalized greenhouse gas reduction goals for our hotels. These ambitious targets underscore our dedication to mitigating our carbon footprint and fostering a more sustainable and eco-conscious operation. In order to achieve the greenhouse emissions we have set the following targets

- Record and reduce energy consumption by 2% compared to previous use each year until 2030.
- Application of environmentally friendly practices in the design of outdoor green spaces with Greek species of plants and crops within our hotel.
- We will have zero single use plastic items at our front of the house operation until 2026.
- We will reduce the volume of our total waste 3% from every source every year.
- The use of water will be reduced 1% every year.

As an integral component of our commitment, we have established a goal to achieve a 12% reduction in greenhouse gas emissions stemming from energy, water, and waste by the conclusion of 2030, commencing with the year 2024.

We are pleased to report that as of 31st December 2023, we have achieved the replacement of all the lamps of public areas and with energy saving lamps. This encompasses the transition to LED lighting, installation of energy-efficient appliances, and continual assessment and enhancement of our HVAC systems with energy efficient equipment.

We urge our esteemed guests, employees, and visitors to back our efforts by adhering to the guidelines placed throughout the hotel concerning water and energy conservation, as well as waste reduction.

We've strategically positioned informative signs featuring instructions and our policies in all back-of-the-house areas. This ensures that our entire staff can carry out their daily tasks in a more responsible and sustainable manner. In each required room, we've also installed signs reminding guests to use the air-conditioning more energy efficiently. Additional details about our sustainability program are available in specific areas throughout the hotel.

Over the course of the preceding year, we directed our endeavours towards fundraising initiatives that engaged our guests, staff, and management in support of the local animal shelter. The amassed funds were subsequently donated to assist the shelter in realizing its objectives. We extend our heartfelt gratitude to all those who made invaluable contributions to this cause.

Furthermore, we orchestrated two pivotal initiatives, made achievable through the collaborative efforts of our esteemed staff and guests. The first initiative encompassed the establishment of a garden on the hotel grounds, adorned with trees and native flora. The second undertaking centred on the meticulous cleaning of the local beach. Every participant demonstrated commendable dedication, leading to the successful removal of considerable amounts of debris from the shoreline.

Regarding other initiatives that we took in cooperation with the local church we gave most of the amounts of our remaining food to groups that were in need. That way we helped people in the time of need. We also provided quantities of food supplies to the local senior house.

In cooperation with the local authorities, we donated to the local prison several mattresses and materials of first need such as small fridges. That way we helped the people in the correction establishment to make their life a little bit better.

Apart from that we helped children from the islands near Kos to take part at the local championships in various sport by accommodating them at our facilities. This initiative will continue and the next year as we have already spoke with the teams and the children get ready for their activities.

For next year we are going to perform the following activities.

1. Beach Cleaning Initiative:

- Implementation of a collaborative effort involving both guests and staff to systematically clean the beaches.

2. Support for Local Cultural Teams:

- Strategic collaboration with local cultural groups to showcase their artistic endeavors and garner requisite support.

3. Continued Partnership with Local Animal Shelter:

- Sustained cooperation with the local animal shelter to perpetuate and build upon the philanthropic efforts of the preceding year.

4. Reforestation Efforts in Collaboration with Local Authorities:

- Close coordination with local authorities to actively participate in the reforestation endeavors aimed at rehabilitating areas impacted by the wildfires in July.

5. Partnership with Local Artisanal Industries:

- Forming an alliance with local small-scale artisanal industries to curate and offer traditional foods and beverages, thereby promoting regional craftsmanship.

6. Establishment of Botanic Gardens within the Hotel:

- Implementation of a comprehensive plan for the creation of botanic gardens strategically situated in various areas throughout the hotel premises.

Should you wish to contribute to this significant community project, a designated donation box is available at the reception desk.

Labranda Marine Aquapark maintains an unwavering commitment to upholding and safeguarding human rights. We firmly advocate for the fair and respectful treatment of every individual. As an integral part of this commitment, we conduct regular training sessions for our staff, specifically focusing on the prevention of discrimination. Over the past year, we have implemented a comprehensive program aimed at educating our staff not only on workplace-related matters but also on broader societal issues such as discrimination, bullying, and fostering acceptance within the local community.

Recognizing that child protection is a shared responsibility, we emphasize the utmost importance of child welfare and the prevention of all forms of harm, both physical and mental. We actively encourage our esteemed guests, staff, and visitors to promptly report any concerns related to child exploitation and abuse to the local police. This can be done by dialling 100 or by reporting directly to the police station situated at Kos Town.

Our progress towards our sustainability goals for the year 2023:

- Reduction of water 2%
- Reduction of energy used 2%
- Reduction of total waste volume 2%
